Mr. Speaker communicated to the House the following cablegram which he had received from His Majesty the King:—

LONDON, February 23, 1920.

I desire that you will convey to my faithful Senate and House of Commons of Canada my warmest greetings on this the first occasion of their assembly in the new buildings with the erection of which my son is proud to have been associated. It is my firm assurance that the deliberations of the Parliament of Canada will, as in the past, redound to the happiness and prosperity of the Great Dominion whose well-being is so vital to the whole Empire.

GEORGE REX.

On motion of Sir George Foster, seconded by Mr. King, it was ordered, That Mr. Speaker do make grateful acknowledgment of the gracious message of His Majesty The King on behalf of the House of Commons.

Mr. Speaker reported, That when the House did attend His Excellency the Governor General this day in the Senate Chamber, His Excellency was pleased to make a speech to both Houses of Parliament, and to prevent mistakes, he had obtained a copy, which he read to the House as follows:—

Honourable Gentlemen of the Senate:

Gentlemen of the House of Commons:

I congratulate you that after an enforced absence of four years, it is possible for you to assemble in your new legislative home, resting in trustful security upon the old foundations and surrounded by the picturesque and historic setting of Parliament Hill. Though not entirely completed, its noble proportions, its wide and convenient spaces, its beauty of design and chasteness of finish and its unique local situation mark it as a most striking and dignified structure, worthy of the people whose national life it will henceforth serve.

Since the last Session of Parliament events of importance have taken place which have brought appreciably nearer the much desired settlements of peace. Following the exchange of the final ratifications, the Treaty of Peace between the Allied Powers and Germany has been brought into full force and effect and has rendered possible the constitution of the League of Nations and the establishment by it of the various Commissions and *mandatories* authorized by the Treaty to be carried out under its direction. It is satisfactory to note that the status of Canada as a member of the League has thus been definitely fixed.

The Treaty of Peace with Bulgaria has been concluded and will be submitted for your approval. Negotiations for the conclusion of Treaties of Peace with Hungary and Turkey are now well advanced and, if concluded in time, will be laid before you during the present Session of Parliament.

The first meeting of the International Labour Conference, in accordance with the provisions of the Treaty of Peace, was held in Washington in October and November of last year and was attended by representatives of my Government and of the Canadian employers' and employees' organizations. It will be gratifying to learn that Canada was selected as one of the twelve Governments whose countries are entitled to representation on the governing body of the International Labour Office.

When the remaining Treaties shall have been concluded and the functions of the League of Nations and the various tribunals authorized thereby become fully operative, it is confidently hoped that the end will have been reached of the confusion and uncertainty consequent upon the long and regrettable delay in bringing into operation the provisions of the Treaty and an effective beginning made in the improvement of national conditions and the adjustment of international relations which will ensure the continued blessings of peace.

The forces which Canada contributed to the war have now nearly all been returned and mostly demobilized and the great majority have resumed their occupations and again become active and important factors in civil life.

The Department of Soldiers' Civil Re-establishment and the Soldiers' Land Settlement Board continue to provide vocational training and opportunities for permanent occupation which greatly aid in the solution of the problem of readjustment, whilst the work of the Labour Employment Bureaus and the helpful service of the Canadian Patriotic Association in administering the emergency Fund provided by Parliament, have materially assisted in solving the problem of temporary non-employment.

In the European economic field clear vision is still impossible and the unsettled state of Exchange, the lack of International Credits, and the inflation of paper currency, combined with the scarcity of raw materials and the demoralization of labour and transport conditions, combine to retard production and to restrict the exchange of products necessary for the proper sustenance of life and the rebuilding of the waste and destruction caused by the great war. From every quarter of the world is being impressed, often by severe privation and suffering, the one great lesson that increased production through increased work, combined with thrift and economy in individual and state, is the only sure hope of business improvement and future prosperity.

After four years of war and a year and three months of confusion and dislocation which has succeeded thereto, it is satisfactory to know that business in Canada has been well maintained, that production has been large and that general conditions are on the whole satisfactory. It is cause for thankfulness that of all countries affected by the war, Canada has maintained a record of social order and industrial and commercial prosperity second to none.

The ratification of The International Opium Convention renders it necessary to obtain legislation to carry into effect its provisions relating to the sale of opium, cocaine and other deleterious drugs. A Bill will be laid before you for that purpose.

A Bill to provide for a Dominion Franchise will be introduced, dealing with the qualifications of voters and the procedure necessary to enable all persons legally qualified to register their votes.

Other Bills will be presented for your consideration including a Bill respecting Copyrights and Bills providing for the amendment of the Patent Act, of the Loan and Trust Companies Act, the Indian Act, and the Exchequer Courts Act.

Gentlemen of the House of Commons:

The accounts for the last fiscal year will be laid before you. Estimates for the next fiscal year will be submitted at an early date, making provisions for the various services of the Government of Canada. These have been formed with a view to strict economy, having due regard to the requirements of the public service and the obligations of the Country.

Honourable Gentlemen of the Senate:

Gentlemen of the House of Commons:

In inviting your careful attention to the important subjects which will engage your attention I pray that the blessings of Divine Providence may attend your deliberations.

On motion of Sir George Foster, it was ordered, That the Speech of His Excellency the Governor General to both Houses of Parliament be taken into consideration on Monday next, and that this order have precedence over all other business, except the introduction of bills, until disposed of.

On motion of Sir George Foster, a Special Committee was appointed to prepare and report, with all convenient speed, Lists of Members to compose the Select Stand-

ing Committees of this House under Rule 10, said Committee to be composed of Messrs.: Reid (Grenville), King, Calder, Meighen, McCoig, Middlebro and Robb, and that portion of Rule 10 limiting the number of members of the said Committee was suspended in relation thereto.

Mr. Speaker laid before the House, the Report of the Joint Librarians of Parliament, which is as follows:—

REPORT OF THE LIBRARIANS OF PARLIAMENT.

OTTAWA, February 25, 1920.

TO THE HOUSE OF COMMONS.

The Joint Librarians of Parliament have the honour to report as follows, for the year 1919:

The recess having been so short, there is little to add to the contents of the report for 1919.

The conditions prevailing in regard to transportation and mails, though improved, are still unsatisfactory, and inevitable delays take place.

The state of the book trade is still disturbed, particularly in regard to books required for the service of Parliament.

There is a decided inactivity in the publication of attractive and useful books, especially in the line of biography.

Books of reference continue to be issued as usual, and the annuals for 1919 have been procured.

Special attention has been given to the legal, military and diplomatic works consequent upon the war, which still continues to affect the output of literature.

Among the additions to the catalogue will be found the narratives of Lord Fisher, Lord Jellicoe, Sir Percy Scott, General Ludendorff, Admiral Von Tirpitz, Count Czernin, and of course many others of like character, though of less importance.

A number of Lord Haig's Despatches have been procured, which, with the maps and plans attached, will be of the greatest service to members.

Attention has also been given to the Peace Treaty, and to all works dealing with it in England or the United States. The number of these is large.

An interesting feature of the discussions that have arisen during the year is the increased attention paid to economic and social questions. A large number of books on those subjects have been added to the Library, and special attention has been paid to them in the catalogue.

The subject of co-operation, particularly agricultural co-operation, having been actively discussed during these two years passed, the whole subject has been covered as far as possible, by getting together all that had been published by Congress. The volumes containing this material will form a valuable part of the Library. But as it is characteristic of these subjects to outgrow in public discussion all that is published concerning them, the literature relating to them will have to be carefully observed and collected from time to time.

The subject of increased space in the Library is as pressing as in previous years.

In 1918 the Librarians reported as follows:—

“No purchases have been made this year to supply the place of books lost in the fire as there would be no shelf-room for them under existing circumstances.

The Librarians understand that some space for the use of the Library will be spared in the new building. As the crowded state of the Library has long been known, and has been reported on yearly for many years, it is hoped that the space to be supplied will be, at least temporarily, sufficient.”

In 1919 they again referred to the subject as follows:

"The Librarians understand that some space for the use of the Library will be spared in the new building. As the crowded state of the Library has long been known, and has been reported on yearly for many years, it is hoped that the space to be supplied will be, at least temporarily, sufficient."

No information has been received during the year, from any source, regarding any proposed plans for increase of space. But the Librarians still entertain the hope that the plans for the new building will include more room for the convenience of Members and for the storage and consultation of books."

Since last year little information has been had on the subject. Statements, probably inaccurate, have reached us of a proposed plan for altering the interior of the Library, in pursuance of a scheme for acquiring further space, the details of which have not reached us.

We desire to point out that any scheme which would dislocate the books from the indexes, catalogues and cards, would involve trouble and expense which the Librarians do not care to contemplate, and which would, for some years, perhaps, prove a great annoyance to Members.

A very large number of books dealing with the Great War have been received and catalogued. Though these are various in character and some of slight value, they all illustrate the incidents of war by land and sea, and few of them can be overlooked.

But it is to the legal, financial and diplomatic sides of the great struggle that most attention has been given.

Among the donations received, we desire to acknowledge a set of reports from the Insurance Institute of Toronto, from 1900 to 1919, seventeen volumes in all.

A list of donations and of copyrights will be duly added.

All of which is respectfully submitted.

A. D. DeCELLES,
General Librarian.

M. J. GRIFFIN,
Parliamentary Librarian.

To the Honourable,
The Speaker of the Commons,
Ottawa.

(For the Appendix to this Report, see Sessional Papers No. 41.)

Mr. Speaker informed the House that the Sergeant-at-Arms, with his approval, had appointed Louis Charles Panet, Esquire, to be his Deputy during the present session of Parliament.

Mr. Rowell, a Member of the King's Privy Council, laid before the House,—Copy of the Treaty of Peace between the Allied and Associated Powers and Bulgaria, signed at Neuilly-sur-Seine on the 27th day of November, 1919.

On motion of Sir George Foster, it was resolved, That when this House adjourns this day, it do stand adjourned until Monday next, at Three o'clock, p.m.

The House then adjourned at 4.35 o'clock, p.m., until Monday next.

The Order for the consideration of the motion for an Address to His Excellency the Governor General, in reply to His Speech at the opening of the Session, being read.

Mr. Cronyn, moved, seconded by Mr. McGregor:—

That the following Address be presented to His Excellency the Governor General, to offer the humble thanks of this House to His Excellency for the gracious Speech which he has been pleased to make to both Houses of Parliament, namely:—

To His Excellency the Most Noble Victor Christian William, Duke of Devonshire, Marquess of Hartington, Earl of Devonshire, Earl of Burlington, Baron Cavendish of Hardwicke, Baron Cavendish of Keighley; Knight of the Most Noble Order of the Garter; one of His Majesty's Most Honourable Privy Council; Knight Grand Cross of the Most Distinguished Order of Saint Michael and Saint George; Knight Grand Cross of the Royal Victorian Order; Governor General and Commander-in-Chief of the Dominion of Canada.

MAY IT PLEASE YOUR EXCELLENCY:

We, His Majesty's most dutiful and loyal subjects, the House of Commons of Canada, in Parliament assembled, beg leave to offer our humble thanks to Your Excellency for the gracious Speech which Your Excellency has addressed to both Houses of Parliament.

And the question being proposed, Mr. King moved in amendment thereto: That the following words be added to the said Address:—

"We respectfully submit to Your Excellency that the conditions under which the Government was formed and the present House of Commons was elected have now passed away, and that new conditions have arisen, which are not being adequately met. The regrettable protracted absence of the Prime Minister, the widely accepted belief that it is not his intention to return to the duties of his office, the makeshift arrangements for the direction of important departments to which no Minister has been regularly appointed, the attempt to carry on the public business when the three Eastern Maritime Provinces are entirely unrepresented in the Cabinet—these and other things operate to produce a condition of uncertainty and instability from which a vigorous and efficient administration of the Dominion's affairs cannot be expected.

"We respectfully submit to Your Excellency that in the interest of the peace, order and good government of this Dominion such a condition of our public affairs should be brought to a speedy termination, and that the only effective remedy is to be found in an appeal to the electors at a general election.

"We, therefore, respectfully represent that Your Excellency's advisers should forthwith bring forward the promised Franchise Bill for the enrolment of the electors and give it precedence over all other business, and that upon the enactment of such a measure as may be necessary, and the making of temporary provisions for the urgent public service, they should take the proper constitutional steps to obtain Your Excellency's approval of an appeal to the people at the polls."

Honourable Simon Fraser Tolmie, Member for the Electoral District of Victoria City, B.C., having previously taken the Oath according to Law, and subscribed the Roll containing the same, took his seat in the House.

And the Debate continuing; the said Debate was, on motion of Mr. McKenzie, adjourned.

The House then adjourned at 9.42 o'clock, p.m.

To His Excellency the Most Noble Victor Christian William, Duke of Devonshire, Marquess of Hartington, Earl of Devonshire, Earl of Burlington, Baron Cavendish of Hardwicke, Baron Cavendish of Keighley; Knight of the Most Noble Order of the Garter; one of His Majesty's Most Honourable Privy Council; Knight Grand Cross of the Most Distinguished Order of Saint Michael and Saint George; Knight Grand Cross of the Royal Victorian Order; Governor General and Commander-in-Chief of the Dominion of Canada.

MAY IT PLEASE YOUR EXCELLENCY:

We, His Majesty's most dutiful and loyal subjects, the House of Commons of Canada, in Parliament assembled, beg leave to offer our humble thanks to Your Excellency for the gracious Speech which Your Excellency has addressed to both Houses of Parliament.

And the proposed motion of Mr. King in amendment thereto,—That the said motion be amended, by adding to the proposed Address to His Excellency the Governor General the following words:—

"We respectfully submit to Your Excellency that the conditions under which the Government was formed and the present House of Commons was elected have now passed away, and that new conditions have arisen, which are not being adequately met. The regrettable protracted absence of the Prime Minister, the widely accepted belief that it is not his intention to return to the duties of his office, the makeshift arrangements for the direction of important departments to which no Minister has been regularly appointed, the attempt to carry on the public business when the three Eastern Maritime Provinces are entirely unrepresented in the Cabinet—these and other things operate to produce a condition of uncertainty and instability from which a vigorous and efficient administration of the Dominion's affairs cannot be expected.

"We respectfully submit to Your Excellency that in the interest of the peace, order and good government of this Dominion such a condition of our public affairs should be brought to a speedy termination, and that the only effective remedy is to be found in an appeal to the electors at a general election.

"We, therefore, respectfully represent that Your Excellency's advisers should forthwith bring forward the promised Franchise Bill for the enrolment of the electors and give it precedence over all other business, and that upon the enactment of such a measure as may be necessary, and the making of temporary provisions for the urgent public service, they should take the proper constitutional steps to obtain Your Excellency's approval of an appeal to the people at the polls."

And the Debate continuing;

WEDNESDAY, March 10, 1920.

And the question being put on the amendment; it was negatived, on the following division:—

The following Orders of the House were issued to the proper officers:—

By Mr. Buchanan:—Order of the House for a copy of all correspondence and telegrams between the Dominion Government and the Alberta Government relating to irrigation development in Alberta, and more particularly to Lethbridge Northern Irrigation District.

By Mr. Gauvreau:—Order of the House for a copy of the correspondence between the Minister of Lands and Forests of the Province of Quebec and the Soldiers' Settlement Board.

Mr. Glass moved,—That, in the opinion of this House, National Economics demand that broadest consideration be given to such means as may be necessary to encourage the fullest development of the natural resources of the Dominion.

Propaganda waged during the trying years of war for increased production proved a stimulus that justifies a continuance of similar efforts, especially as regards products of the soil, as from this source, possibly more than from any other, must be created that new-found-wealth, so necessary to the up-building of our national structure on broad and permanent foundations.

The exigencies of war have forced upon our country the development of hitherto latent resources, the success of which should impel us to even greater endeavour, so that the country may reap in the most ample measure the economic advantages of all its many and varied products.

To this end further substantial encouragement might be given to extending and developing production in flax, hemp, and other fibres, for which the soil and climatic conditions of different parts of the Dominion have proven their suitability:—

First.—By establishing experimental and demonstration stations convenient to the area within which such fibres have been successfully grown, so that scientific instruction and direction may be given to growers in the most modern and approved methods of preparing their fibres for the world's markets.

Secondly.—By lending such encouragement as may be needful to the perfecting of mechanical appliances for harvesting the crop, so that growers may overcome the handicap of competition with cheap labour in foreign countries.

Thirdly.—By scientific standardization and grading of seed and fibres a permanent market may be obtained for our exportable surplus of these products, thus giving our growers an advantage in competing with foreign countries.

Fourthly.—By competent direction and encouragement (by propaganda) in order that production of these fibres may be extended to all of the provinces of the Dominion, wherein the climatic and soil conditions justify the expectation that they may be successfully grown.

Fifthly.—By continuing and further extending such encouragement as may be necessary to develop the spinning industry in Canada, so that in the fullest measure possible, the products may be spun into yarns, and woven into cloths within the Dominion, in order that the full economic value of our fibres in their many and varied uses may be conserved within the country.

After Debate thereon, the question being put on the said motion; it was resolved in the affirmative.

Mr. Archambault moved,—That, in the opinion of this House, whereas the French language is one of the two official languages of the House of Commons of Canada and many of the members use the French language in addressing the said House of Commons and it is important that all members of the said House of Commons should have knowledge of the speeches so delivered; and whereas a very large majority of the English-speaking Members do not understand the French language, and the speeches which are delivered in French do not appear in English in the Debates unless it be in the revised edition some six or seven months after they have been delivered, which is the opposite of what follows in connection with speeches which are delivered in English, the translation of same being published in French in the Debates of the following day; therefore the speeches delivered in French should be translated into English and so published in the Unrevised Debates and distributed the following day.

And a Debate arising thereon, the said Debate was, on motion of Mr. Déchéne, adjourned.

The following Order of the House was issued to the proper officer:—

By Mr. Demers:—Order of the House for a copy of all letters, telegrams, correspondence, and other papers in the possession of the Government, in connection with the transfer of mail bags from the C.P.R. mail car to the mail car of the Quebec, Montreal and Southern Railway Company, and from the latter to the former, at Iberville Junction, during the period extending from the month of November, 1917, to the month of April, 1918.

At Six o'clock, p.m., Mr. Speaker declared the House adjourned until to-morrow, at Three o'clock, p.m.

And also,—Return to an Order of the House of the 22nd March, 1920, for a Return showing the cases in which, from October 1, 1896, to the present, in the computation of superannuation allowances to retiring officials, additional years were allowed under the provisions of Section 12, of Chapter 7, R.S., the dates of the granting of the allowances, the names of the officials and the number of years added to the actual service; along with a copy of all Treasury Board Reports and Orders in Council relating to such cases.

Mr. Mowat moved,—That, in the opinion of this House, it is expedient that the men of Canada between the ages of eighteen and twenty-five, other than those who are crippled and infirm, should receive physical training to increase their ability in civil and industrial life, and to fit them to defend their country against invasion or aggression, and that for this purpose the Department of Militia and Defence should organize training schools and camps so that all such men should have an opportunity of putting in four weeks' time annually for training for seven years, with the option of increasing the yearly period of training in any year so long as the training does not exceed twenty-eight weeks of a man's life.

And that in the opinion of this House national service should be universal in a democracy and not left to whim or preference and that a volunteer system tends to produce class feeling that is unfair.

And that it is expedient to curtail the customary expenditure for military purposes and that the Government of Canada should, as soon as may be, cease to employ or maintain a permanent or standing army, and that when a sufficient number of young men have been trained they be formed into a reserve for defence purposes,

and that no pay be given other than for subsistence and separation allowances, together with a reasonable sum for pocket money and comforts in the field.

PRAYERS.

Mr. Speaker informed the House that the Clerk of the House had received from the Clerk of the Crown in Chancery a certificate of the Election and Return of Angus McDonald, Esquire, for the Electoral District of Timiskaming.

This is to certify that in virtue of a Writ of Election dated the Eighteenth day of February, A.D. 1920, issued by His Excellency the Governor General, and addressed to George Caldbick, Esquire, Sheriff of Haileybury, as Returning Officer for the Electoral District of Timiskaming, in the Province of Ontario, for the election of a Member to represent the said Electoral District in the House of Commons of Canada, in the present Parliament, in the room of the Honourable F. FRANCIS CHADWICK,

*Deputy Clerk of the Crown in Chancery,
for Canada.*

To W. B. NORTHRUP, Esq., K.C.,
Clerk of the House of Commons,
Ottawa.

Mr. Cronyn, from the Special Committee appointed to consider the matter of the development in Canada of Scientific Research, presented the First Report of the said Committee, which is as follows:—

The Special Committee appointed last year to consider the above question presented their report thereon to this House on the 2nd day of July, 1919. In that report the establishment of a Bureau of Standards was recommended, but while a generous national support for scientific research was unanimously favoured for the reasons then stated no decision was reached as to the precise method whereby that support could be most effectively applied.

Your Committee, the majority of whom served in a similar capacity last year, having further considered the whole matter in the light of the evidence and material already adduced have no hesitation in stating that the urgency of action to be taken to establish a National Research Institute to promote scientific and industrial research in Canada is patent to all who know what is being done abroad in this line.

There is in Canada no organization which even distantly approaches the character of any of the research institutes established abroad or now being established.

Great Britain has the National Physical Laboratory at Teddington, near London. Germany has two research institutes, one physical and the other chemical. In France and Italy measures are being taken to organize research institutes. The United States has a National Bureau of Standards at Washington, to which is also now attached a laboratory building of exceedingly ample accommodation, to be devoted to industrial research. The amount spent by the Bureau exceeds two million dollars a year. The Commonwealth Government of Australia is establishing an institute of science and industry. An institute for research known as the Cawthorn Institute is being established at Nelson, New Zealand, by private benefaction. Japan is founding a National Research Institute, for which already ample funds have been obtained from the Emperor, the Government and from private sources.

It is evident, therefore, that Canada, to meet the international competition which the work of these laboratories will serve to accentuate very greatly, must have a National Research Institute, which will place at the command of the country all the resources of science and further the development of the natural wealth of the country to meet the huge burden of debt imposed by the war. The developed wealth of Canada as compared with that of the United States is small. If the natural resources of the Dominion were appropriately utilized, its developed wealth might readily be as much as ten times what it is now. The conversion of our natural resources into developed wealth, however, can only be accomplished through the application to them of science of the most highly advanced type.

To take one instance only, to show how vital research is to Canada, it may be pointed out that the high grade iron ores of the world are being exhausted, and, in consequence, the lower grades must in the very near future be alone available. Of these Canada has an enormous supply in areas distributed from the Atlantic to the Pacific. We are to-day importing annually at least \$150,000,000 worth of ore, iron, steel and their products. If research could show us how to utilize commercially our own low-grade iron ores in competition with foreign high-grade ores we would not only build up important mining and manufacturing industries throughout Canada, but as well avoid remitting vast sums abroad.

It may be pointed out also, that in Great Britain the industrial firms in a large number of lines of industry are now being organized under the auspices of the Department of Scientific and Industrial Research into Trade Associations for Research. These industries will thereby be put in a position of enormous advantage as regards production. The National Research Council of the United States is organizing similar associations in the United States to meet competition from abroad. In Canada the organization of similar bodies, "Guilds for Research" must be encouraged by being associated with a National Research Institute.

Your Committee believe the first step towards providing for the research required is the establishment of a National Research Institute whose functions will be to carry on researches, not only parallel to those of the Bureau of Standards at Washington,

but such also as will assist in the development of the natural resources of the country and will promote the application of the most advanced scientific knowledge to all lines of industrial production in Canada.

In this connection your Committee have considered the following matters:—

1. The scope of the work of the proposed Research Institute and the form of its government.

2. The site of the institute and the character of the buildings which should first be erected.

3. The appropriation that should be made by Parliament during this session for the purchase of a site. The erection of the buildings and the maintenance of the Institute.

1. The work of the Institute should include the following:—

(a) The investigation and determination of standards and methods of measurements, including length, volume, weight, mass capacity time and heat, light, electricity, magnetism and other forms of energy; and the determination of physical constants and the fundamental properties of matter.

(b) The standardization of the scientific and technical apparatus and instruments for Government service and for use in the industries of Canada; and the determination of the standards of quality of the materials used in the construction of public works and of the supplies used in the various branches of the Government service.

(c) The investigation and standardization upon request of the materials which are or may be used in the industries, and of the products thereof.

(d) Researches undertaken with the object of improving the technical processes and methods used in the industries and of discoveries of new processes and methods which may promote the expansion of the existing industries or the development of new Canadian industries.

(e) Researches undertaken to assist in the development of the natural resources of Canada.

(f) Researches undertaken to promote the utilization of the waste products of industries.

2. The Institute should have charge, direction or supervision under conditions to be determined in each case of the researches which may be undertaken by or for individuals or industrial firms or by such organizations, to be known as Trade Guilds for research, as may desire to avail themselves of the facilities offered for this purpose by the Institute.

Your Committee accordingly recommend:—

1. That a National Research Institute for Canada endowed with the functions and of the character indicated in the foregoing be established in the vicinity of Ottawa, on a site fifty acres in area, of easy access and conveniently located for water, gas and electric power supply.

2. That the first building to be erected for the Institute should be of the best modern construction suitable for laboratory work and of such dimensions as to provide accommodation for some years to come.

3. That there be appropriated by Parliament \$500,000 for the purchase of the site and the construction of the building, \$100,000 for the scientific equipment of the Institute, and \$50,000 for salaries and maintenance during the first year of its operation.

4. That legislation be enacted at this session to provide for the establishment of this National Research Institute and the government of the same.

Mr. Sifton, a Member of the King's Privy Council, presented,—Return to an Order of the House of the 31st March, 1920, for a copy of all letters, telegrams and other correspondence that has passed between one George Carvill, of the City of St.

Also a copy of all correspondence between members of the Government or any officials thereof and the Board of Railway Commissioners or any officials thereof in reference to the report mentioned above.

The following Bills from the Senate were respectively read the first time, and ordered for a second reading at the next sitting of the House, viz.:—

JOURNALS

OF THE

HOUSE OF COMMONS
OF CANADA

OTTAWA, THURSDAY, 6TH MAY, 1920.

PRAYERS.

Mr. Mewburn, from the Special Committee appointed to consider and report upon the question of what Memorials, if any, should be erected on the Battle Fields of the late War to commemorate the gallantry of Canadian Troops, presented the First Report of the said Committee, which is as follows:—

Your Committee, pursuant to the Resolution passed by the House on the 21st ultimo, met on the 22nd ultimo, for organization purposes, and at this meeting the Hon. C. S. Mewburn was elected Chairman.

Prior to the appointment of your Committee a considerable amount of preliminary investigation and work had been done by the Department of Militia and Defence; and the first task of your Committee was to consider the information laid before it by that Department.

The Chairman read the Statement hereto attached, marked "A", outlining in general terms the progress which had been made.

Brigadier General H. T. Hughes, C.M.G., D.S.O., was then examined, and his statement is attached hereto, marked "B".

Subsequently your Committee examined General Sir Arthur Currie, G.C.M.G., and Professor Percy E. Nobbs, Professor of Architecture in McGill University.

After considering all the material before it, and hearing the evidence of the witnesses, your Committee makes the following recommendations, viz.:—

(1) That it is desirable for the honour of Canada to erect a number of Memorials in France and Belgium to mark the exploits of the Canadian Forces.

(2) That the under-mentioned eight sites, which were selected after careful consideration by a Committee of senior officers, over which Sir Arthur Currie presided, are the most suitable and should be adopted:—

1. St. Julien.
2. Passchendaele, Crest Farm.
3. Hill 62, Observatory Ridge.
4. Hill 145, Vimy.
5. Dury Cross Roads.
6. Bourslon Wood.
7. Courcellette.
8. Hospital Wood, between Caix and LaQuetsnel.

The three sites in Belgium (1, 2 and 3) were donated by the Belgium Government. Of those in France four were purchased from private owners at a total cost of \$1,500. The fifth at Bourlon Wood was presented to Canada by the Comte de Francqueville, Mayor of Bourlon, as a token of his gratitude and appreciation of the gallant work of the Canadian Corps. Titles to all these properties have been obtained, and the deeds are in the office of the High Commissioner in London.

(3) That eight Memorials of a permanent character and worthy of the events commemorated should be erected on these sites. In regard to these Memorials two alternative suggestions were considered, namely:—

(a) That all eight Memorials should be of the same general character, and erected at approximately the same cost;

(b) That one of the eight, in a central position, should be of a more imposing design than the other seven.

The Committee considered that this point might be left for determination at a later date.

(4) That a competition in design, open to all Canadian architects, designers, artists and sculptors should be held to determine the design or designs to be adopted.

It was pointed out to your Committee that a number of Canadian artists or designers might not be resident or engaged in practising their profession in Canada, but might, for example, be studying at institutions abroad or in the United States. It was felt that such individuals should not be excluded from the competition, and that the final decision as to the eligibility of any person to submit designs should be left in the unfettered discretion of the Department, Commission or Committee which should eventually assume charge of the work.

(5) Your Committee considered the conditions of such a competition prepared by Professor Nobbs, and noted the fact that they had been examined and approved by the President of the Royal Canadian Institute of Architects, and the presidents of the Provincial Architects' Associations. It was, however, the Committee's opinion that the final adoption of such conditions should be left to the Department, Commission or Committee which should eventually be charged with the carrying out of the proposed project.

(6) That the holding of the competition, the selection of designs, the letting of contracts and the prosecution of the work generally could best be undertaken by a small honorary commission, with a Minister of the Crown as a member, invested with the widest possible powers consistent with the public interest.

(7) That as four of the sites are at a distance from the main highway, it will be necessary to construct approximately three miles of permanent roads; first, to enable material to be hauled to the sites, and second, to provide permanent and suitable access to the Memorials.

The construction of these roads, and the competition in design are matters requiring immediate attention, and the Committee recommends that the sum of \$250,000 be included in the Supplementary Estimates at the present Session of Parliament in order that this work may be carried on.

Your Committee is strongly of the opinion that Brigadier General H. T. Hughes should proceed to Europe at the earliest possible date in order that necessary preliminary construction, particularly upon the roads, may proceed without delay.

(8) Your Committee is not in possession of the necessary data on which to base an accurate estimate of the cost. From the information before it, however, it is of the opinion that the cost of erecting eight Memorials all of the same general character, including road-building, competition in design, professional fees, travelling and other incidental expenses, would approximate \$1,500,000.

Should it be decided to erect one Memorial of more imposing or elaborate design than the others, the cost would be proportionately increased.

Your Committee begs to submit herewith the evidence of General Currie and Professor Nobbs marked "C".

(For Statements and Evidence accompanying this Report, see Appendix to the Journals, No. 1.)

Mr. Armstrong (Lambton), from the Select Standing Committee on Railways, Canals and Telegraph Lines, presented the Fourth Report of the said Committee, which is as follows:—

Your Committee have had under consideration Bill No. 71, An Act respecting The Bell Telephone Company of Canada, and have agreed to report the same without amendment.

By leave of the House, on motion of Mr. Mewburn, it was ordered, That the First Report of the Special Committee appointed to consider and report upon the question of what Memorials, if any, should be erected upon the Battlefields of the late War, together with the statements and evidence attached thereto, be printed for the information of Members of the House, and that Rule 74 be suspended in reference thereto.

Mr. McCoig, by leave of the House, introduced a Bill, No. 112, An Act to provide for the Standardization of Parts of Agricultural Machinery, which was read the first time, and ordered for a second reading at the next sitting of the House.

The following Bills from the Senate were respectively read the first time, and ordered for a second reading at the next sitting of the House, viz.:—

The Order being read for the House to go again into Committee of Ways and Means;

The Order for Private Bills having been disposed of;

The House then resumed the Debate on the proposed motion of Sir Henry Drayton: That Mr. Speaker do now leave the Chair for the House to go again into Committee of Ways and Means.

And the question being proposed;

Mr. Fielding moved in amendment thereto: That all the words after "That" to the end of the question be omitted, and the following inserted instead thereof:

"the Minister of Finance, in the Budget Speech in the session of 1919, gave assurance to the House that during the ensuing Parliamentary recess there would be a public inquiry by the Minister and one or more of his colleagues into the operation of the Customs tariff, with a view to a general revision of the tariff at the following session.

"That the promised public inquiry has not taken place, and the expected proposals for tariff revision at this session have not been submitted to the House.

"That in view of the continued increase in the high cost of living, of the greatly increased burden of taxation, of the hardship which many of the people suffer from these causes and the unrest naturally arising therefrom; and in view of the desirability of adopting measures to increase production and effect such relief to consumers and producers as may be within the power of Parliament, the House is of opinion that, pending a wider revision of the tariff, substantial reductions of the burdens of Customs taxation should be made with a view to the accomplishing of two purposes of the highest importance: first, diminishing the very high cost of living, which presses so severely on the masses of the people; second, reducing the cost of the instruments of production in the industries based on the natural resources of the Dominion, the vigorous development of which is essential to the progress and prosperity of our country."

And a Debate arising thereon, the said Debate was, on motion of Mr. McMaster, adjourned.

The House then adjourned at 10.20 o'clock, p.m.

JOURNALS

OF THE

HOUSE OF COMMONS

OF CANADA

OTTAWA, THURSDAY, 27TH MAY, 1920.

PRAYERS.

Sir Sam Hughes, from the Special Committee appointed to confer and act with a like Committee of the Senate in determining the form of the Memorial to be erected in the Parliament Buildings to the late Lieutenant-Colonel Baker, M.P., presented the following as their First Report:—

At the request of the Committees, made during the last session of Parliament, Major R. Tait MacKenzie, a noted Canadian artist and sculptor, prepared two alternative sketches of the proposed Memorial, and at a recent meeting of the Committees in joint session, the sketches were submitted and explained by Major Tait MacKenzie. Mr. John Pearson, Architect of the Parliament Buildings was present, and his views were also considered as to the merits of the suggested designs.

After several meetings and careful consideration, your Committee beg to recommend that the site for the proposed Memorial selected by your Committee during the last session of Parliament and approved by both Houses be adhered to.

That the Memorial be a figure in stone about six feet six inches in height, in high relief, carved to a likeness of the late Lt.-Colonel Baker in military uniform, and set in a shallow niche on a pedestal four feet in height; the figure itself and the back ground to be made out of a solid block of limestone which would replace the part of the wall in the site chosen by your Committee last session.

It is submitted that a figure in stone in preference to a bronze figure would fit in more harmoniously with the architecture of the building, and forming part of the building would be a more fitting tribute to one who so gallantly laid down his life for the Empire.

With regard to the inscription on the proposed Memorial, your Committee recommend that the following be inscribed on the front of the pedestal:—

“Lieutenant-Colonel George Harold Baker, M.P.,
Fifth Canadian Mounted Rifles,
Killed in action, June second, 1916,
At the battle of Sanctuary Wood,
Erected by order of the Parliament of Canada”,

and that the selection of suitable inscriptions for the right and left sides of the figure be submitted in a subsequent report of your Committee, and for this purpose your Committee further recommend that they be given leave to sit again, and to report from time to time.

A clay model in miniature of the Memorial is on view in Room No. 534.

Your Committee have been informed by Major MacKenzie and the Architect that the estimated cost of the proposed Memorial will be in the neighbourhood of \$12,000, and your Committee beg to recommend that such an amount be placed in the Supplementary Estimates at the present session to defray the cost of the said Memorial.

On motion of Sir Sam Hughes, it was ordered, That in accordance with the recommendation contained in the Report of the Special Committee appointed to confer and act with a like Committee of the Senate in determining the form of the Memorial to be erected in the Parliament Buildings to the late Lt.-Colonel George Harold Baker, M.P., the said Committee be authorized to sit again, and to report from time to time.

The Order for Private Bills having been disposed of;

The House then resumed the Debate on the proposed motion of Sir Henry Drayton: That Mr. Speaker do now leave the Chair for the House to go again into Committee of Ways and Means, and the proposed motion of Mr. Fielding in amendment thereto: That all the words after "That" to the end of the question be omitted, and the following inserted instead thereof:

"the Minister of Finance, in the Budget Speech in the session of 1919, gave assurance to the House that during the ensuing Parliamentary recess there would be a public inquiry by the Minister and one or more of his colleagues into the operation of the Customs tariff, with a view to a general revision of the tariff at the following session.

"That the promised public inquiry has not taken place, and the expected proposals for tariff revision at this session have not been submitted to the House.

"That in view of the continued increase in the high cost of living, of the greatly increased burden of taxation, of the hardship which many of the people suffer from these causes and the unrest naturally arising therefrom; and in view of the desirability of adopting measures to increase production and effect such relief to consumers and producers as may be within the power of Parliament, the House is of opinion that, pending a wider revision of the tariff, substantial reductions of the burdens of Customs taxation should be made with a view to the accomplishing of two purposes of the highest importance: first, diminishing the very high cost of living, which presses so severely on the masses of the people; second, reducing the cost of the instruments of production in the industries based on the natural resources of the Dominion, the vigorous development of which is essential to the progress and prosperity of our country."

And the Debate still continuing;

The Bill No. 53, An Act to amend the Civil Service Act, 1918, and the Civil Service Amendment Act, 1919, was read the third time and passed.

The House went into Committee of the Whole to consider certain proposed Resolutions respecting the sale and inspection of Commercial Feeding Stuffs.

(In the Committee.)

The following Resolutions were adopted:—

Resolved, That it is expedient to bring in a measure to regulate the sale and inspection of Commercial Feeding Stuffs, Bran, Shorts, Middlings and Chopped Feeds, and to provide,—

1. That in the following resolutions, unless the context otherwise requires,—

“Commercial Feeding Stuff” means any article offered for sale for the feeding of live stock and poultry, including feeds stated to possess medicinal as well as nutritive properties, but not including, (a) hay and straw; (b) whole grains of wheat, rye, barley, oats, corn, buckwheat or flax seed; (c) chop feeds; (d) bran, shorts or middlings when unmixed with other materials; (e) wet brewers’ grains, roots or other materials containing sixty per centum or more of water;

“Chop Feed” means the mixed or unmixed meals made directly from and consisting of the entire clean grains of wheat, rye, barley, oats, Indian corn, buckwheat and flax seed;

“Feeding Stuff” means any commercial feeding stuff, bran, shorts or middlings and chop feed;

“Minister” means the Minister of Agriculture.

2. (1) That every sack, bag, bin, or other container of commercial feeding stuffs sold or offered, exposed or held for sale, shall have affixed thereto a tag or label in a conspicuous place on the outside thereof, containing a legible and plainly printed statement of, (a) the name, brand or trade mark of the contents; (b) the full name and address of the manufacturer; (c) the specific name of every ingredient contained in the feed; (d) the registered number; (e) the analysis as guaranteed by the manufacturer which shall show the percentage content of protein, fat and fibre.

(2) That in the case of car lots in bulk, the provisions of this resolution shall be held to be fulfilled if the statement required therein is attached to the invoice or bill of lading delivered to the purchaser.

3. That no make of commercial feeding stuff shall be imported into, distributed, sold or held for sale in Canada unless it has been registered with the Minister of Agriculture and a registration number assigned to it. Application for registration must be made by the manufacturer and must be accompanied by a registration fee of two dollars, a sealed representative sample of at least one pound of such feeding stuff, and a statement of the contents of such feeding stuff in such form and containing such details as the Minister by regulation may prescribe. The registration shall be for a period continuing until the first day of October following the date upon which it is granted, but such registration may be renewed from year to year. The conditions for renewal shall be the same as those for the original registration.

4. (a) That the Minister may refuse to register any commercial feeding stuff under a name or brand which in the opinion of the Minister would tend to mislead or deceive with respect to the materials of which it is composed, or when the statement of the contents is in the opinion of the Minister incomplete or misleading. The Minister may also refuse to register more than one commercial feeding stuff under the same name or brand.

(b) That the Minister shall have power to cancel any registration which in his opinion has been made in violation of any of the provisions of the proposed Act or of any regulation.

(c) That no change in the composition of a registered brand of commercial feeding stuff shall be made without re-registering it.

5. That every sack, bag, bin or other container of chop feed made from and consisting of more than one kind of clean grain, when sold or offered, exposed or held for sale, shall have affixed thereto a tag or label in a conspicuous place on the outside thereof, containing a legible and plainly printed statement of the ingredients contained in the mixture.

6. That every lot of bran, shorts or middlings sold or offered, exposed or held for sale must meet the requirements as to quality and chemical contents established for them respectively by regulations under the proposed Act, or be registered and sold as commercial feeding stuffs as required by the foregoing resolutions numbered 2 and 3.

7. That no grain, screenings or any other ingredient which contains in excess of the quantity allowed by regulation, any seeds, damaged grain or other material designated by regulation of the Minister as injurious to the health of live stock or poultry, shall be used as a constituent of any feeding stuffs.

8. That no feeding stuff shall be sold, or offered, exposed or held for sale, which contains any vital weed seeds in excess of the quantity allowed by regulation.

9. That if any make of feeding stuff imported into Canada be found to be adulterated or incorrectly or misleadingly labelled or named, or if in any way its sale constitutes an infraction of the proposed Act, its further importation may be forbidden by the Minister.

10. That any purchaser of feeding stuff may have an analysis made thereof by an official analyst, and the certificate of analysis shall be accepted as evidence in any prosecution, and the Minister may publish the result of the analysis or other examination of feeding stuff.

11. That any officer or person charged with the enforcement of this proposed Act shall have access to any elevator, warehouse or other premises where grains or other constituents of feeding stuffs are blended, or supposed to be blended, for the manufacture of feeding stuffs, and any premises or receptacles containing or supposed to contain feeding stuff, wherever they may be located, and may take any samples from any receptacle on payment of the value of such samples.

12. That the Minister shall have power,—

(a) to appoint an advisory board which may at his request define for his guidance and recommend regulations that may be established under the proposed Act;

(b) to make regulations prescribing the maximum amount of whole or ground weed seeds and other substances which may be allowed in any grain or other ingredients used for the manufacture of feeding stuffs, without affecting the right to describe it as clean within the meaning of the proposed Act;

(c) to make regulations establishing a standard of quality and contents for, and fixing the limits of variability permissible in any feeding stuff or ingredient or constituent thereof;

(d) to designate the kind of damaged grain, seeds or other material which shall be considered as injurious to the health of live stock or poultry within the meaning of the proposed Act;

(e) to make regulations prescribing the size, colour and character of the labels to be used for the purposes of the proposed Act, and the size and kind of printing to be used for any particulars required to be printed on such labels;

(f) to make regulations prescribing how samples of feeding stuffs are to be taken and analysed; and

(g) to make regulations for any other purpose deemed by him to be necessary for the carrying out of the provisions of the proposed Act.

13. That any person accused of selling, offering, exposing or having in his possession for sale any feeding stuff which does not comply with the requirements of the proposed Act or of any regulations thereunder, who proves that the feeding stuff respecting which action was taken was bought by him directly from a manufacturer or merchant domiciled in Canada, that it was neither opened nor the state of the feed altered while it was in his possession, and that he had no reason to believe that the said feeding stuff did not comply with the provisions of this proposed Act, shall upon disclosing the name and address of the person from whom the feeding stuff was purchased, the place purchased and the date of the sale, be liable only for the cost of the prosecution; and that every magistrate who has disposed of any such case shall within one month from the date of his judgment therein send to the Minister a report of the case giving the name and address of the person who sold the feeding stuff to the accused, and the date and place of the sale; and any prosecution against any person pursuant to the report made to the Minister under the foregoing provision may be commenced within six months from the date of such report and not later.

14. That except as provided in the preceding resolution a penalty for violation of these provisions not exceeding \$100 for a first offence, and of not less than \$100 and not exceeding \$200 for a second offence, and for each subsequent offence of not less than \$200 and not exceeding \$500, together with the costs of prosecution, be enacted, and in default of immediate payment of such fine and costs, imprisonment for a term not exceeding twelve months unless such fine and costs are sooner paid, and the feeding stuff shall be liable to forfeiture to His Majesty.

15. That the penalty for obstructing any officer or person charged with the enforcement of the proposed Act, when entering any premises to make any examination of any feeding stuff, or refusing to permit the making of such examination or the taking of samples, shall be a fine of not less than \$25 and not more than \$500, or imprisonment for any term not exceeding twelve months.

16. That the penalty for forging or unlawfully using any manufacturer's registration number or any certificate of analysis or other examination hereunder shall be a fine not exceeding \$200 for the first offence and not less than \$200 and not exceeding \$500 for each subsequent offence, or imprisonment for a term not exceeding twelve months or both fine and imprisonment.

17. That this proposed Act shall not apply to feeding stuff sold to a manufacturer for the purpose of cleaning or mixing, or to feeding stuff manufactured for any person from his own materials and for his own use.

18. That in any complaint, information or conviction hereunder, the matter complained of may be declared, and shall be held to have arisen, within the meaning of Part XV of the Criminal Code, at the place where the feeding stuff was sold, or offered, exposed or had in possession for sale.

19. That the Commercial Feeding Stuffs Act, 1909, be repealed, and that the proposed Act shall come into operation on such date as may be prescribed by proclamation issued by the Governor in Council.

TELEGRAM.

OTTAWA, June 14, 1920.

Rev. Dr. SPEER,

Toronto, Ont.

You are reported in a despatch from Toronto which appears in the *Ottawa Citizen* newspaper of this date as follows: Rev. Dr. Speer stated that letters were of no avail in this case but money in the lobby. We hadn't the money. I hope the Department did something. It was a foregone conclusion that these men of the race track would get what they wanted. Kindly inform me whether you made such a statement or one similar in character. If report incorrect I deem it my duty to request you to inform me what you did say concerning this subject. Matter brought to my formal attention in the House to-day by the Prime Minister, supported by the leader of the Opposition. An immediate reply is therefore essential.

EDGAR N. RHODES,

Speaker of the House of Commons.

TORONTO, Ont., June 14, 1920.

The Speaker of the House,

Ottawa, Ont.

SIR,—In replying to your telegram of to-day *re* reported statement of mine at the Methodist Conference *re* race track legislation, I beg to state that, that I had no intention of casting any reflection on any member of the Ottawa Parliament as to his integrity or honour. My statement was that the Church had no money to send deputations to watch legislation and lobby for our side. The race track men of course had the money. My thought was not that money was used in the sense of bribery, but in keeping men there. We were berated by one speaker because we did not send letters. The words "Foregone conclusion" referred to the fact that after the war was over this matter of racing would come back. I did not leave the impression on the Conference that I thought it a foregone conclusion that the Government would stand in with the race track people. I greatly regret that a false impression was left by the half dozen sentences which I uttered on this question. I shall be glad, sir, if you will make the substance of this telegram clear to the members of the House.

J. C. SPEER.

The Order being read for the House to resolve itself again into Committee of Ways and Means;

JOURNALS

OF THE

HOUSE OF COMMONS
OF CANADA

OTTAWA, WEDNESDAY, 16TH JUNE, 1920.

PRAYERS.

Mr. Speaker informed the House, That the Clerk had laid on the Table the Nineteenth Report of the Examiner of Petitions, which was read as follows:—

Pursuant to Rule 96, Section 3, the Examiner of Petitions for Private Bills has the honour to present the following as his Nineteenth Report.

Your Examiner has duly examined the following Bills from the Senate and finds that all the requirements of the 91st Rule have been complied with in each case, viz.:—

Bill No. 180 (Letter K4 of the Senate), intituled: "An Act respecting the Dominion Trust Company," and

Bill No. 181 (Letter S4 of the Senate), intituled: "An Act to incorporate the Great West Bank of Canada."

Mr. Boys, from the Special Committee to whom was referred Bill No. 14, An Act to amend the Indian Act, presented the following Report:—

1. Your Committee convened on the 31st day of March, 1920, and thereafter held seventeen meetings, hearing thirty-five Indian witnesses from various parts of Canada, and in addition heard long and able addresses from three Counsel learned in the law who appeared for the Six Nation Indians and certain of the Allied Tribes of British Columbia.

2. Having given Bill No. 14 careful consideration, your Committee have agreed to report the same with amendments, and for the information of the House report herewith their minutes of evidence and the exhibits filed in connection therewith.

3. That in the opinion of your Committee the administration of the affairs of an Indian community or band by an hereditary council may be detrimental to the best interests and progress of such Indians, and your Committee would therefore recommend that wherever such a system exists the Government should ascertain whether the majority of the male members of the band of the full age of twenty-one years, are in favour of the adoption of an elective system of councillors, and if so, that the provisions of the Indian Act in this regard should be put into operation as soon as possible.

4. During the meetings held by your Committee many of the Indian Chiefs expressed great satisfaction with the opportunity the meetings gave them of presenting their views to a Committee of Parliament, and many intimated that if this

opportunity was given more frequently it would lead to a better understanding of Indian Affairs, and having in view the strong representations made in this connection, your Committee would recommend that the rules of the House be amended to provide for the appointment of a Select Standing Committee upon Indian Affairs.

5. Your Committee therefore commend the suggestions contained in paragraphs 3 and 4 hereof to the favourable consideration of the Government.

(*For Minutes of Evidence and the Exhibits filed accompanying this Report, see Appendix to the Journals, No 3.*)

Mr. Steele, from the Select Standing Committee on Miscellaneous Private Bills, presented the Eighth Report of the said Committee, which is as follows:—

Your Committee have had under consideration the following Bills and have agreed to report the same without any amendment, viz:—

Bill No. 159 (Letter C4 of the Senate), intituled: "An Act for the relief of Mary Oakley."

Bill No. 160 (Letter D4 of the Senate), intituled: "An Act for the relief of Margaret Elizabeth Cooper."

Bill No. 161 (Letter E4 of the Senate), intituled: "An Act for the relief of Catherine Burfoot."

Bill No. 163 (Letter G4 of the Senate), intituled: "An Act for the relief of Thomas Lindsay Thacker."

Bill No. 162 (Letter F4 of the Senate), intituled: "An Act for the relief of Margaret Henrietta Pettit."

Bill No. 145 (Letter T3 of the Senate), intituled: "An Act for the relief of John William Wallace."

Your Committee recommend that the additional charge levied and paid under Rule 89, Paragraph 3 (*b* and *c*) on the last mentioned Bill, be refunded.

On motion of Mr. Steele it was ordered, That in accordance with the recommendation contained in the Eighth Report of the Select Standing Committee on Miscellaneous Private Bills, the additional charge levied and paid under Rule 89, Paragraph 3, (*b* and *c*) on Bill No. 145 (Letter T3 of the Senate), intituled: "An Act for the relief of John William Wallace," be refunded.

The following Order of the House was issued to the proper officer, under subsection 4 of Rule 37:—

2. That subsection four of section 160 be amended to provide that in every case where grain has been delivered at any country elevator, or where grain which has been so delivered and for which a warehouse storage receipt for special binned grain was issued, is subsequently purchased by the operator of any such elevator and a cash purchase ticket issued therefor to the person by whom such grain was delivered as aforesaid or to the person lawfully entitled to hold and surrender such warehouse storage receipt or storage receipt for special binned grain, if the paying agent of such warehouseman within twenty-four hours after demand by the holder (provided such demand be made during twenty-four hours after the issue of the purchase ticket) neglects or refuses to redeem such cash purchase ticket, the said holder may at once, upon surrender of such cash ticket demand in exchange therefor a warehouse storage receipt bearing the same date and place of issue, and for a similar grade and net weight of grain as was shown on the cash purchase ticket aforesaid. Upon return of the said cash purchase ticket to the warehouseman, he shall at once issue to the holder in exchange therefor a warehouse storage receipt of the same grade and quantity of grain as shown on the face of said surrendered cash purchase ticket.

By leave of the House, Sir Robert Borden moved, That the House do now return to Motions under Routine Proceedings; which was agreed to.

Motions being accordingly called;

Mr. Cronyn, from the Special Committee appointed to consider the question of continuing the war bonus now being paid to pensioners under the existing pension law and any amendments to the law which may be proposed or may be considered necessary and further authorized to continue the inquiries instituted by the Committee on Civil Re-establishment last Session into such matters as may call for further investigation, presented the following as its Third and final Report. The orders of reference and the authority of the Committee are contained in the resolutions appearing on page 111 of the printed Evidence of the Committee.

SITTINGS, WITNESSES AND COMMUNICATIONS.

Your Committee held sixty-six sessions and examined fifty-six witnesses. Over 670 communications were received and it was found necessary to constitute a sub-committee on correspondence to report on these communications to the main Committee. The communications were divided into those having reference to general subjects and those having reference to individual cases. Over 200 of those having reference to individual cases were considered by a further sub-committee which secured the files bearing on each case from the proper Departments, and made careful investigation and inquiry into them with the assistance of the officers of the Department concerned. Reports of these sub-committees will be found in the printed reports of the proceedings of your Committee. The communications having reference to general subjects in conjunction with the evidence given by the various witnesses examined were carefully considered in connection with any proposed amendments to the pension law or in the rules and regulations on civil re-establishment. The orders of reference dealt with two distinct branches of inquiry: first, Pensions, and second, Re-establishment.

PART I.—PENSIONS.

1. From the communications received and the evidence given it became clear to your Committee that the scale of pensions, even with the addition of the bonus of twenty per cent provided under the Pension Act of 1919, was too low to ensure a reasonable standard of comfort in the face of the rising cost of living throughout the country. In view of the possibility, however, that in future years prices might recede, your Committee is of the opinion that increases in pension should be in the main effected by way of a bonus to be continued until such time as the cost of living warrants its modification.

The bonus payments which were given effect to last session increased the pensions by approximately twenty per cent over the existing or basic rates for or in respect to privates and corporals (Military) and ratings below Petty Officers (Naval) and also increased the pensions of Sergeants, etc., by a sufficient amount to bring them to the same level as those of the rank and file. The bonus which your Committee proposes should be given this year would increase the pensions by fifty per cent over the basic rates for or in respect to privates and corporals (Military) and ratings below Petty Officer (Naval); and would also increase the pensions of those below the rank of Lieutenant by an amount sufficient to bring them to the same level as those of the rank and file.

The first table given below sets out in figures the actual results of these increases in the case of a man totally disabled. No increase in pensions is suggested for those holding the rank of Lieutenant or a higher rank. In the opinion of your Committee the proposed increase of bonus from twenty to fifty per cent should only apply to those pensioners residing in Canada. In the case of those resident elsewhere it is proposed that the former bonus of twenty per cent be continued for another year.

The proposed increases in the schedules of rates and suggested amendments to the present Act have been incorporated in a Bill, a copy of which is attached hereto.

II.—PROPOSED INCREASE IN PENSIONS.

1. It is proposed, in the Bill appended hereto, to increase pensions to those resident in Canada, by way of a bonus for one year in accordance with the following tables:—

(a) *Pension for total disability (per annum).*

Rank or Rating of Member of Forces.	Basic Rate.	Present Bonus.	Total.	Basic Rate.	Proposed Bonus.	Total.
	\$	\$	\$	\$	\$	\$
Privates and Corporals (Military), Ratings below Petty Officer (Naval)....	600 00	120 00	720 00	600 00	300 00	900 00
Sergeants, etc. (Military), Chief Petty Officer, etc. (Naval).....	637 50	82 50	720 00	637 50	262 50	900 00
Regimental Sergeant-Major, etc. (Military), Naval Cadet and Midshipman (Naval).....	775 00	Nil.	775 00	775 00	125 00	900 00
Warrant Officers (Military and Naval)..	850 00	Nil.	850 00	850 00	50 00	900 00

The proposed bonus will bring the pensions of the above ranks up to the amount of pensions at present paid to Lieutenants (Military) and sub-Lieutenants (Naval).

Proportionate amounts of pension and bonus will be paid for disabilities less than total.

It is estimated that the additions above proposed to disability pensions will increase the yearly liability under this head by about \$2,500,000 per annum.

(b) *Pension for Widows (per annum).*

Rank or Rating of Member of Forces.	Basic Rate.	Present Bonus.	Total.	Basic Rate.	Proposed Bonus.	Total.
	\$	\$	\$	\$	\$	\$
Privates and Corporals (Military), Ratings below Petty Officer (Naval)....	480 00	96 00	576 00	480 00	240 00	720 00
Sergeants, etc. (Military), Chief Petty Officer, etc. (Naval).....	510 00	66 00	576 00	510 00	210 00	720 00
Regimental Sergeant-Major, etc. (Military), Naval Cadet and Midshipman (Naval).....	620 00	Nil.	620 00	620 00	100 00	720 00
Warrant Officers (Military and Naval)..	680 00	Nil.	680 00	680 00	40 00	720 00

The proposed bonus will bring the pensions of the widows of members of the forces holding the above ranks up to the amount of pensions at present paid to widows of the members of the forces holding the rank of Lieutenant (Military) and Sub-Lieutenant (Naval).

Estimated increased liability, \$1,150,000 per annum.

(c) *Pension for dependent parents (per annum).*

Rank or Rating of Member of Forces.	Basic Rate.	Present Bonus.	Total.	Basic Rate.	Proposed Bonus.	Total.
	\$	\$	\$	\$	\$	\$
Privates and Corporals (Military), Ratings below Petty Officer (Naval), (not exceeding).....	480 00	96 00	576 00	480 00	240 00	720 00
Sergeants, etc., (Military), Chief Petty Officer, etc. (Naval), (not exceeding)...	510 00	66 00	576 00	510 00	210 00	720 00
Regimental Sergeant-Major, etc. (Military), Naval Cadet and Midshipman (Naval), (not exceeding).....	680 00	Nil.	620 00	620 00	100 00	720 00
Warrant Officers (Military and Naval), (not exceeding).....	680 00	Nil.	680 00	680 00	40 00	720 00

The proposed bonus will bring the pensions of dependent parents of members of the forces holding the above ranks up to the amount of pension at present paid to dependent parents of the members of the forces holding the rank of Lieutenant (Military) and Sub-Lieutenant (Naval).

Under the existing Pension Law the allowance to a dependent parent is liable to reduction where such parent is in receipt of an income from outside sources, or is the owner of a house, or has unmarried sons who are capable of contributing to the maintenance of such parent.

Your Committee felt that so far as the widowed mothers of deceased soldiers are concerned the present law works an unfair hardship. By section 23 of the attached amending Bill it is proposed to modify the existing conditions as follows:—

No reduction shall be made in the pension to a widowed mother because she has the advantage of free lodgings by reason of the ownership of her home or otherwise, nor, if she is resident in Canada, shall any reduction be made because she is in receipt of an income from outside sources of not more than \$20 a month. In so far as that outside income exceeds the sum of \$20 a month her pension will be reduced. Should she have an unmarried son or sons living with her who, in the opinion of the Pension Board, are capable of aiding in her maintenance, she shall be deemed to be in receipt of support to the extent of \$10 a month from each son.

The effect of these changes in the law, added to the proposed bonus, will be materially to increase the liability under this head. Not only will many mothers whose pensions have heretofore been reduced receive their full pensions without deduction but there will be added to the pension list a number whose incomes from outside sources have hitherto barred them as pensioners. It is a difficult matter to estimate accurately what the total increase in liability will be by reason of the above changes but it is believed it will be amply covered by a yearly payment of \$2,400,000.

2. It is further proposed definitely to increase pensions in respect of wives and children in accordance with the following tables:—

(a) *Pensions in respect of wives and children of total disability pensioners (all ranks):*

	Present rate. (Yearly)	Proposed rate. (Yearly)
Wife	\$180 00	\$300 00
First child	144 00	180 00
Second child	120 00	144 00
Subsequent children	96 00	120 00

Pensions in respect of wives and children of pensioners with less than total disability to be increased proportionately.

Estimated increased liability, \$1,000,000 per annum.

The totally disabled man having a wife and three children (of pensionable age) as a result of the changes suggested above would have his yearly income increased from \$1,260 to \$1,644, made up as follows:—

	Present Rate.		Proposed Rate.	
	Monthly.	Yearly.	Monthly.	Yearly.
Totally disabled man .. .	\$60	\$720	\$75	\$900
Wife	15	180	25	300
First child	12	144	15	180
Second child	10	120	12	144
Third child	8	96	10	120
Total	\$105	\$1,260	\$137	\$1,644

Should the disabled man be, as well, in a helpless condition he would be entitled to receive, in addition to the above amount, a further allowance for helplessness of not less than \$250, and not exceeding \$750 per annum.

(b) *Pensions in respect of children of widows (all ranks):*

	Present Rate (Yearly).	Proposed Rate (Yearly).
First child	\$180	\$180
Second child	120	144
Subsequent children	96	120
Estimated increased liability, \$220,000 per annum.		

(c) *Pensions in respect of orphan children (all ranks):*

	Present Rate (Yearly).	Proposed Rate (Yearly).
First orphan child	\$360	\$360
Second orphan child	240	288
Subsequent orphan children	192	240
Estimated increased liability, \$17,000 per annum.		

(d) There is set out below a table of the comparative amounts payable annually to those of the rank and file permanently totally disabled under the new scale suggested for Canada and under the existing rates so far as known in the countries of the allied belligerents.

	Single man.	Man and Wife.	Man, Wife and child.	Man, Wife and 2 children.	Man, Wife and 3 children.	Each additional child.
	\$	\$	\$	\$	\$	\$

Italy	243 33	291 99	318 75	345 51	372 27	26 76

3. It is also proposed to make further changes in pensions as follows:—

(a) To increase the allowance for helplessness from a maximum of \$450 per annum to a maximum of \$750 per annum, with a proviso that the allowance shall in no case be less than \$250 per annum.

Estimated increased liability, \$60,000 per annum.

(b) To provide that a disability pensioner who is maintaining his father or mother or both in addition to his wife shall be entitled to an addition to his pension for each parent not exceeding \$180 per annum when he is totally disabled and a proportionately less amount when his disability is less than total disability.

Estimated increased liability, \$200,000 per annum.

(c) To provide that when a deceased soldier previous to his enlistment or during service was wholly or to a substantial extent maintaining his mother or father or both as well as his wife that an additional pension may be awarded to each such parent not exceeding \$180 per annum.

Estimated increased liability, \$80,000 per annum.

(d) To provide that when a deceased soldier wholly or to a substantial extent was maintaining both his parents that the pension for one parent may be increased by an additional amount not exceeding \$180 per annum and the total pension may be apportioned between such parents.

Estimated increased liability, \$135,000 per annum.

(e) To provide for the continuance of pensions to children of a member of the forces who are physically or mentally incapacitated, for life instead of, as at present, up to twenty-one years of age.

Estimated increased liability, \$15,000 per annum.

(f) To provide that when a disability pensioner dies and his estate is not sufficient to pay the expenses of his last sickness and burial such expenses shall be paid up to an amount not exceeding one hundred dollars. At present these expenses are only paid when a pensioner dies as a result of his disability.

It is estimated that the cost of carrying out this provision during a period of 35 years will amount to about \$2,000,000 but, as can readily be understood, the cost in the immediate future will be lighter than that in the years to come.

Estimated increased liability for the ensuing year, \$20,000.

(g) To increase during their residence in Canada the pensions now being paid to or in respect of veterans of the Fenian Raid, the Northwest Rebellion, the South African War, and to other Canadian Pensioners in accordance with the rates set out in the schedules to the Bill appended.

Estimated increased liability, \$25,000 per annum.

Total approximate increased liability, \$7,800,000 per annum.

III. NUMBER OF PENSIONS AND THE AMOUNT OF LIABILITY.

The total number of disability pensioners on the 31st day of March, 1920, was 69,583 and the yearly liability was \$14,305,441.05. The total number of dependent pensioners was 18,188 and the yearly liability \$11,101,463.50. The total number of pensioners of all classes was 87,771 and the yearly liability for the past year was \$25,406,904.55. Including the wives and children of disability pensioners and children of widows of deceased members of the forces, the total number benefiting from payment of pensions was 177,035.

The estimated liability under the present rates for the fiscal year, April 1, 1920, to March 31, 1921, is \$25,825,676.22. The estimated cost of the increases above proposed is nearly \$8,000,000. Total estimated liability for the present fiscal year will be, therefore, in excess of \$33,000,000.

IV. OTHER PROPOSED CHANGES IN THE PENSION LAW.

It has been represented to your Committee that in the operations of the Pension Act certain changes in wording are advisable from an administrative point of view. The changes which are proposed in this connection do not in any way affect the meaning of the various sections amended. Other more important changes, however, are also proposed which are as follows:—

(a) Change in the definition of the words "member of the forces". The change suggested involves the payment of pensions for disabilities and deaths incurred by a member of any Canadian military, naval or air force in the future at the same rates as those granted to members of the Canadian Expeditionary Force, but hereafter it will be necessary to prove that the disability or death resulted directly from military or naval service.

(b) Change in the amount of the Commissioners' salaries from five to six thousand dollars per annum, the Chairman's salary being continued at seven thousand dollars.

(c) Payment of Pensions to dependents even though death be due to improper conduct, provided such death has occurred on service.

(d) Payment of long service pension as well as disability pension. To carry out this proposal it will be necessary to amend both the Militia Pension Act and the Royal North West Mounted Police Act. Copies of Bills to accomplish this end are appended hereto.

(e) Change to provide that the pensions in respect of British residents domiciled in Canada previous to the war shall during the continuance of their residence in Canada be supplemented by Canada only in the cases of Warrant Officers and Officers. Following the recommendation of the Parliamentary Committee made in June, 1919, the Pension Act of that year provided that supplementary pensions should be paid by the Dominion of Canada to disabled members of the Imperial Forces who had, since the war, resumed their residence in this country, and to the widows and children resident in Canada of members of the Imperial or Allied Forces who had died during the war. The British Government, since the passing of the Pension Act, has agreed to supplement the pensions of all ranks below Warrant Officer so that the total pension will be equal to the pension which such ranks would have received had they served in the Canadian Forces.

V. COMMUTATION OF PENSIONS.

It was represented to your Committee that much discontent was caused by the payment of small pensions for disabilities of fourteen per cent in extent and under. The basic pensions for these disabilities amount, at the present time, in the case of an unmarried private, to only two and one-half dollars a month for a disability of five to nine per cent and five dollars a month for a disability of ten to fourteen per cent. Many requests have been made for the payment of a lump sum in lieu of these pensions and your Committee, after a consideration of the evidence given, is of opinion that members of the forces pensioned for disability of fourteen per cent in extent or under should be offered the option of continuing to receive this pension or of accepting a cash payment in lieu thereof based on the extent of the disability and its probable duration. Those who are permanently disabled to an extent of five to nine per cent would be entitled to the maximum payment which would amount to three hundred dollars, and those permanently disabled to an extent of ten to fourteen per cent to the maximum of six hundred dollars.

VI. GENERAL.

Your Committee received many suggestions on the subjects dealt with in the above clauses I. to V.; these suggestions have not been set out in full, as to do so would unduly expand this report; the decisions reached and here reported indicate they were duly considered. In addition to such suggestions others dealing with pensions were received, which, in the opinion of your Committee, could not be favourably recommended. It is thought well, however, to incorporate these latter suggestions in this report and to follow each by a short note of the reasons which compelled the Committee to reject the same.

Suggestion (a)—"That the inequality of pensions of officers and other ranks should be reconsidered and abolished."

NOTE.—This suggestion has been considered by every Parliamentary Committee on Pensions. In view of the undertaking given at the outbreak of the war it has been deemed impossible to reduce the pensions awarded to officers. As has already been stated, the increases now proposed bring to an equal basis the pensions of all below the rank of Captain: this means that nearly 99 per cent of those in receipt of pensions will be paid exactly the same amounts.

Suggestion (b).—"That pension be based on the earning capacity of the individual."

NOTE.—This suggestion has also been considered by earlier Committees. It has not appeared practicable in this country to adopt such a plan. To do so would discriminate against those pensioners who, prior to the war, were not earning so large an income as their more favoured comrades, and against those who, because of their youth, were until enlistment maintained by the parents. The increases suggested will bring the pension of a private soldier, if he be a married man with a family, up to and much beyond the maximum amount awarded to Imperial pensioners under a plan in force in Great Britain analogous to the one proposed.

Suggestion (c).—"That the dependents of a pensioner who contracted marriage subsequent to the appearance of disability or to discharge from the Forces be not discriminated against in the benefits of the Pension Act."

NOTE.—As the law now stands, a woman who marries a soldier after he is disabled is not entitled to a pension on the death of her husband. Should, however, her husband's death be due to service, his children may be awarded a pension. The above suggestion has been before former Committees; it received the earnest and repeated consideration of your Committee. Under the proposed plan for the insurance of returned soldiers, dealt with later in this report, a disabled man will hereafter be in a position to protect his wife by taking out a policy on his own life. This insurance will be available at a low cost to all returned soldiers no matter how seriously they may be disabled. In view of this new provision, and for other reasons, your Committee was unable to reach a decision in favour of the proposal.

Suggestion (d).—"That where it is apparent after 3 years that a man's disability is permanent that he be awarded a permanent pension based on the last examination."

NOTE.—This suggestion was made both by the Board of Pension Commissioners and by certain Soldiers Organizations, but met with disapproval of other Associations. It was pointed out that, under the practice of the Pension Board, many cases were each month being placed on a permanent basis. To make such a measure apply to all, at the present time, might result in hardship to many pensioners, as it may prove impossible within the time specified definitely to determine the extent of certain disabilities. Your Committee, therefore, favoured a continuation, for the time being, of the present regulations.

Suggestion (e).—"That should a member of the Forces to whom a pension has been granted in classes 1 to 10 die, his widow and children shall be granted a pension at rates laid down for the widows and children of soldiers killed in action. That in classes 10 to 15 two-thirds; and in classes 15 to 20 one-third of the pension shall be granted."

NOTE.—Under the present law (1) If the death of a disability pensioner, no matter in what class, is due to service, his widow and children are entitled to full pension.

(2) If a pensioner is in classes 1 to 5, that is to say, if his pensionable disability is 80 per cent or more and he dies from any cause within five years after he is discharged or becomes a pensioner, his widow and children are also entitled to the full pension.

(3) But if a pensioner is less than 80 per cent disabled, and his death is not due to service, his widow and children do not receive a pension.

Reference has already been made to the proposed Insurance Act whereunder all pensioners will be enabled to secure protection for their families.

Suggestion (f)—"That provision be made for the assurance of academic or technical training and education of fatherless children or orphans."

NOTE.—Provision is already made under the present law whereby the pensions for both orphans and other children are continued until they are aged 21, provided they are making satisfactory progress in their courses of instruction and are without the resources necessary to continue such training.

Suggestion (g)—"That the question be considered of allowing the widow who remarries to retain her pension till death takes her away."

NOTE.—Upon the re-marriage of a widowed pensioner she is given a bonus equivalent to one year's pension in full of all further claims. The pensions to her children by her deceased soldier husband are, however, continued until they reach the respective age limits set out in the Act.

Suggestion (h)—"That owing to the large number of Canadian pensioners living in the United States, representatives of the Canadian Pension Board should be appointed in such cities as New York and Chicago."

NOTE.—It was pointed out by the Pension Commissioners, that satisfactory arrangements had been made with the American Red Cross, which has Branches all over the United States, to assist Canadian pensioners resident in that country.

Suggestion (i)—"That arrangements be made that the Bank of Montreal, New York, should cash at par in the United States cheques of Pensioners resident in the United States."

NOTE.—At the present time the Pension Board is remitting funds to over 14,000 pensioners resident outside of Canada. Over two-thirds of these pensioners reside in Great Britain; nearly thirty per cent are in the United States; the balance being scattered over some twenty different countries. Under the existing law these pensions are all payable in Canadian funds. Where the Canadian dollar is at a premium, as in Great Britain, the pensioner reaps the benefit, where it is at a discount, as in the United States, he suffers a loss.

Suggestion (j)—"Representations were made on behalf of Imperial pensioners resident in Canada regarding the administration and payment of their pensions by the Canadian Board of Pension Commissioners."

NOTE.—This work has been undertaken at the request and on the instructions of the Imperial Government. It is a continuation, with certain enlargements, of an arrangement made some twelve years ago. Your Committee feels that it is a matter over which it has no control, but as the Imperial authorities supervise the entire affair and can be appealed to in case of dissatisfaction that it would be ungracious for Canada to refuse to act.

A further point urged on behalf of those in receipt of Imperial pensions for long service was that if such a man enlisted in the Canadian Expeditionary Force his service therein did not entitle him to a larger long service pension although similar service in the British Expeditionary Force and with certain other overseas forces would result in such an increase. Your Committee believes this also is a matter beyond its jurisdiction as the decision complained of is that of the Imperial Government.

Suggestion (k)—"Former members of the Canadian Permanent Forces in receipt of long service pensions have laid a similar complaint before the Committee, viz.: that enlistment and service in the Canadian Expeditionary Force do not entitle them to any increase in their long service pensions unless they have again been taken on the strength of the Permanent Force as now reorganized."

Your Committee makes no recommendation on this point; to grant such an increase would be in effect to reward the ex-permanent man for performing the same duties as those undertaken by every other volunteer in the Canadian Army.

PART II.—RE-ESTABLISHMENT.

The Order of reference on this branch authorized the Committee to continue the enquiries instituted by the Committee on Re-establishment last Session into such matters as might call for further investigation.

I. GENERAL CASH GRATUITIES.

It is the strong conviction of your Committee that the first duty of the country is to the dependents of those who have fallen, and to the men disabled by service. In considering the claims of such as these the inclination throughout this enquiry has been towards an ample measure of generosity. It is not putting it too strongly to say that your Committee treated as secondary the added cost to the country which its recommendations in this connection may entail.

When, however, the question arises of compensating those who have returned alive and well, for their efforts and privations, even if such services could be calculated or rewarded on a monetary basis, regard must be had to the ability of the country to carry the burden which such action would impose.

Your Committee, having before it the comprehensive report made on the same subject last autumn by the Committee above referred to, and the printed evidence of nearly one thousand pages then adduced, and bearing in mind the exhaustive investigation made on that occasion, felt it would be both unnecessary and unwise to attempt to again cover the ground which had already been so carefully surveyed. Recalling, too, the pronouncement of the Government, on the question of granting a further general cash gratuity to all returned soldiers, made last year and repeated this year subsequent to the above order of reference, your Committee decided against re-opening this question, and therefore makes no recommendation thereon.

II. EXTENSION OF TIME FOR PAYMENT OF WAR GRATUITIES.

Under the provisions of the Order in Council whereby war service gratuities are authorized an applicant must be residing in Canada and must file his claim therefor not later than July 1, 1920.

Attention has been drawn to the fact that certain ex-members of the forces are prevented from returning to Canada through wounds or illness.

Your Committee therefore recommends under regulations to be instituted:—

That the date of application for war service gratuity by ex-members of His Majesty's Forces, as provided for in Order in Council of the 1st December, 1919 (P.C. 2389), be extended from 1st July, 1920, to 31st March, 1921, and that such Gratuity be paid to those members of His Majesty's Forces who though they have made application for such Gratuity prior to the 31st March, 1921, have not returned to Canada at the date of such application owing to their being detained out of Canada on account of wounds or sickness, but who however return to Canada within one month after being physically fit to travel as certified by proper authority and become forthwith bona fide domiciled therein.

III.—WAR SERVICE GRATUITIES FOR THE DEPENDENTS OF THOSE WHO DIED ON SERVICE.

The war service gratuity referred to in the preceding paragraph was not only awarded to the returned man in accordance with his length of service but as well to his wife or other dependents.

The widows and dependents of those who died on service while awarded pensions, did not share in this gratuity save to this extent, that the widows of deceased soldiers were paid a bonus or gratuity equivalent to two months' pension. A strong plea has been made in favour of granting to the widows and dependents of the fallen some further share of this gratuity.

After much consideration and prolonged discussion, your Committee is of the opinion that the dependents of the dead soldier who, during his service were in receipt of separation allowance, are entitled to that share of the gratuity which they would have received had he survived.

It would be obviously unfair to calculate this gratuity upon the deceased soldier's length of service.

Your Committee therefore recommends under regulations to be instituted:—

(a) That the dependent or dependents of an officer, warrant officer or man, who had served in the Naval or Land Forces of Canada, on active service during the war of 1914-1919, and who was killed in action or died in the service, on or prior to the 1st October, 1919, shall be entitled to receive a war service gratuity equal in amount to that which they would have received as dependent's portion of war service gratuity as provided for in Orders in Council, P.C. 3165, of 1918, P.C. 285 of 1919, and P.C. 1168 of 1919, had the officer, warrant officer or man, on whose account the said portion of war service gratuity would have been paid, been retired or discharged at the date of his death with three years' service in such forces. From such gratuity shall be deducted the amount of bonus paid under Section 39 of the Pension Act.

(b) That in cases where a member of His Majesty's Forces fulfilled the conditions of domicile in Canada at the outbreak of the war as set forth in the recommendation on Bill No. 10 and contained in the Order in Council of the 1st December, 1919 (P.C. 2389), and has either been killed or died on service on or prior to the 1st October, 1919, there shall be paid to the dependent or dependents of such ex-member of His Majesty's Forces, provided they make application for same prior to the 31st March, 1921, and are bona fide domiciled and resident in Canada at the date of making such application, a war service gratuity equal in amount to that which they would have received as dependent's portion of war service gratuity under the provisions of the Order in Council aforesaid, had the officer, warrant officer or man, on whose account the said portion of war service gratuity would have been paid, been retired or discharged from the service at the date of his death with three years' service in such forces, but for the fact that the member of such forces was unable to return to Canada owing to his death.

The cost of making the payments above recommended is estimated at \$1,800,000.

IV.—INSURANCE FOR RETURNED SOLDIERS.

The Committee of last Session suggested further enquiry into some plan whereby the handicap imposed upon disabled men and others in the matter of life insurance might be overcome.

It is clear that many returned men who are in receipt of small pensions find themselves either unable to secure life insurance at all or are called upon to pay premiums at distinctly higher rates than those demanded from standard lives.

If these men die from causes other than service, their dependents will, except in certain cases, receive no pension under the Pension Act, and in the absence of life insurance, much hardship may result. In the case of the soldier dying during service, from whatever cause, the widow or other dependents received a pension, for the reason that all deaths occurring during service were deemed to be attributable to service. Now that the war is over, it is essential, for pension purposes, to distinguish between deaths due to service and those due to other causes. The proportion of the former tends to decrease and the latter to increase with the lapse of time. The remedy for the hardship pointed out appears to be a system of life insurance, and, your Committee having considered several proposals recommend that the Dominion of Canada undertake to insure all returned soldiers at the lowest possible rates compatible with safety.

A Bill to provide such insurance, prepared by the Dominion Superintendent of Insurance, Mr. G. D. Finlayson, was carefully examined in conference with that officer and Mr. Thomas Bradshaw. A copy of this Bill amended in certain particulars as a result of the conference is attached hereto.

The chief features of the Bill are as follows:

1. Any returned soldier, sailor or nurse domiciled and resident in Canada and in certain cases the widow of any returned soldier or sailor may insure with the Dominion of Canada to an amount of from \$500 to \$5,000.

2. This insurance will be granted without medical examination and will therefore be available to all no matter what may be their condition of health.

3. The rates of premium will vary with the age of the insured and with the type of policy issued, that is to say: whether it is a straight life policy or a policy to be paid for in ten, fifteen, or twenty years. All rates are payable in advance and may be paid monthly, quarterly, half-yearly or yearly as desired. A schedule of monthly rates is attached to the copy of the Bill: this shows that at the age of twenty-five a straight life policy for \$1,000 calls for a monthly payment of \$1.24 or a yearly payment of \$14.88. These rates although based on a recognized table of mortality contain no loading for cost of administration and so forth as these expenses will be borne entirely by the Dominion.

4. The policy is payable on the death of the insured, one-fifth thereof in cash and the balance in annual instalments over a period of years or as a life annuity to the beneficiary.

5. If the insured becomes totally and permanently disabled and is not in receipt of a pension, premiums will be waived and the insured will be paid the amount of the policy in annual instalments for a period of twenty years.

6. The beneficiaries under the policy are restricted to the wife, husband, child, grandchild, parent, brother or sister of the insured.

7. If on the death of the insured it is found that a pension or pensions become payable to persons eligible as beneficiaries under the policy, the total present value of such pensions shall be deducted from the sum payable under the policy and there shall be returned the proportionate part of the premiums paid with interest.

8. The policy cannot be assigned or transferred and the moneys payable thereunder are not subject to the claims of creditors.

9. The opportunity to secure this insurance will remain open for a period of two years.

V.—WORKMEN'S COMPENSATION INSURANCE.

The attention of the Committee was called to the difficulties which exist in placing disabled men in industry owing to the increased risk to the employer in the event of accident, and it was urged that your Committee should recommend that the Government assume either the entire cost of insurance in respect of a pensioner under the various Workmen's Compensation Acts, or, as an alternative, the excess amounts which any employer might be called upon to pay owing to the existence of a war disability.

It was not possible to give this question the consideration its importance demands and it was therefore decided to recommend that the Department of Soldiers' Civil Re-establishment should make a further investigation into the matter, and report the result to the Government so that a plan may be evolved to deal with this whole question in such a manner that the opportunities for employment for disabled men will not be lessened, nor the employers penalized.

VI.—LOANS FOR RE-ESTABLISHMENT.

This question involved the weightiest problem before your Committee on the Re-establishment branch of its inquiry. As was more fully set out in the report of last year, financial assistance in the form of loans or grants has been suggested for the benefit of a great variety of classes of returned soldiers whose needs covered almost every possible activity.

(a) This year particular stress was laid upon the advisability of granting assistance by way of loans to establish ex-members of the forces in the fishing industries of the Atlantic and Pacific coasts, or in the inland waters of Canada. It was argued with much force that in order to recruit and maintain either a naval or mercantile marine service, it was essential that the youth of the country should be encouraged to follow their fathers in seafaring pursuits. The need of increased food production, and the value of fish in this respect, were well emphasized.

(b) The position of University and other students and the dire need of financial assistance under which a relatively small number labour, were also brought to the attention of the Committee.

The students' case was last year ably presented by representatives from the Universities and medical profession. This year, while your Committee did not hear further oral evidence, it had before it various memorials and suggestions dealing with the subject.

(c) Another large class were those returned men and widows who desire loans for the purpose of either repaying mortgages or other indebtedness on their houses, or of buying or erecting homes in which to reside. The marked increase of rentals throughout Canada, and the high rate of interest on mortgages, particularly in western cities, have intensified the desire for this form of assistance.

(d) In addition to these larger and more well-defined classes, there exists a multitude of cases in which financial assistance would be of value under an almost infinite variety of conditions.

The difficulty which faced your Committee was the conviction that a grant to any particular class or classes, no matter how worthy or pressing their needs might be, must inevitably result in the widest extension of a system of loans for all and every purpose of re-establishment.

(e) No concrete, workable plan whereby such a general system of advances could be safely adopted has been suggested, and your Committee feels unable to recommend any scheme which could equitably supply the demands of the many whose suggestions have been brought to its attention.

(f) It however recommends the continuation of the provisions made last year whereby the Department of Soldiers' Civil Re-establishment is authorized to advance a sum not exceeding \$500 to disabled men for the purchase of tools and equipment, or to enable them to pursue any course of training or education interrupted by war service.

VII.—TUBERCULOUS CASES.

The question of tuberculosis is one of grave importance in its relation to both pensions and re-establishment. Over 7,000 returned soldiers suffering from some form of this malady have undergone treatment. At the close of last year 2,798 were on the books of the Pension Board and of these 1,067 were classed as 100 per cent disabled. The claims of these men were very strongly pressed upon the Committee. Much evidence was given and many suggestions were made both by patients in sanatoria and by medical practitioners who are specialists in this disease.

It was pointed out that under the present system, while a man whose disability was 100 per cent due to service would, on discharge from sanatorium, be granted, for a limited period, a total disability pension (in order to permit a continuation of the necessary rest and the avoidance of over exposure and undue exertion), a man in the same condition clinically, the origin of whose disability antedated enlistment, might receive a pension of a lesser amount, resulting in some cases in hardship, with a consequent early return to sanatorium.

The attitude of your Committee throughout the hearings on this subject has been that of the greatest sympathy with men who unfortunately have become stricken with tuberculosis. Various conferences have been held with the Board of Pension Commissioners and the officials of the Department of Soldiers' Civil Re-establishment, with a view to discovering a means whereby the unfortunate situation of the man whose disability is only partially due to service may be remedied. As a result of these conferences it has been decided to make a more generous assessment of the percentage of disability of the tuberculous ex-soldier, whose disability was partially due to service and aggravated thereby.

Your Committee felt that the main problem in connection with the treatment of the tuberculous is not so much sanatorium treatment as what is known as after-care. Sanatoria in Canada under the Department of Soldiers' Civil Re-establishment, or utilized by that Department, would appear to be managed and operated along the most modern and effective lines known to medical science, but after a man has undergone a period of treatment and is sent to his home the conditions often are far from ideal. It is understood that a committee of tuberculosis specialists, two of whom gave evidence before your Committee, is at present visiting the various sanatoria throughout Canada and investigating home conditions in the different provinces with a view, partially, to the preparation of a report dealing with the subject of after-care.

It is recommended that the Department of Soldiers' Civil Re-establishment together with the Board of Pension Commissioners for Canada should, after the receipt of the report referred to, prepare a definite scheme for the after-care of ex-members of the forces discharged from sanatoria and if so recommended include in such scheme the active co-operation of voluntary civilian organizations throughout Canada.

It is further recommended:

(a) That all cases receive a careful examination every six months by specialists in the service of the Board of Pension Commissioners;

(b) That at all times further free treatment be provided by the Department of Soldiers' Civil Re-establishment in cases of recurrence of activity in the disease; and

(c) That such supervision as may be possible be given to such cases by both of these organizations.

VIII. AMPUTATION AND HANDICAP CASES.

As in the case of the tuberculous man the sympathy of the Committee was aroused by the condition of those who have lost their eyesight or limbs or who are suffering from severe facial disfigurement.

So far as pensions are concerned a sub-committee composed of four medical members of the Committee carefully scrutinized the Table of Disabilities employed by the Pension Board and reported that the same appeared to deal fairly with these and other classes of disabilities. It is hoped the general increase in pensions suggested in this report may bring a measure of relief to those so sorely afflicted.

On the re-establishment side, the question is more difficult. As has been pointed out by the officers of the Patriotic Fund, the injection into the labour market of so many disabled workers renders their absorption into industrial or commercial pursuits both slow and precarious.

In the succeeding section mention is made of one method whereby the situation may be strengthened; your Committee feel however that employers of labour both large and small throughout the whole of Canada shall be urged to reserve for such men all the posts which might possibly be filled by the disabled.

Among other points raised during the enquiry the following suggestions were made:

Suggestions.—1. That a system be devised whereby a man could go to any limb maker and select his own artificial limb, which would be paid for by the Government.

2. That the handicap employment section of the Information and Service Branch be continued subsequent to the demobilization of that Branch for the purpose of finding employment for handicap or amputation cases.

3. That adequate provision be made by the Government for proven cases of actual need among single ex-soldiers unable because of amputation or disability due to illness to obtain employment of a nature sufficient to cover their actual needs, such provision to assume the form of a special fund provided by the Government and to be administered as the Government shall see fit.

4. That as a blinded soldier when travelling requires the services of an attendant for whom transportation must be purchased, a pass on the Government Railways be provided.

Recommendations.—1. The first suggestion, if carried out, will involve a reversal of the policy which has been followed by the Government for the past four years, a policy which has been much commended by other countries and which recently has been followed by the Government of Australia. Your Committee is of the opinion that a standard limb manufactured by the Government with interchangeable parts, renewable and repairable at various points in Canada, is preferable to a limb purchased from a local firm for various reasons. One of these is that a private dealer is not able to secure the use of patents which may be taken out by a rival firm whereas the Government has free access to all patents. Further, each private firm could not open fitting and repair depots all over the country. It is, therefore, deemed to be very greatly in the interest of the man suffering an amputation that the Government should continue to manufacture and furnish the artificial appliances he may require.

2. Your Committee is informed that while the Information and Service Branch of the Department of Soldiers' Civil Re-establishment is undergoing demobilization, provision is being made for the continuation, in a somewhat modified form, of the Handicap Employment Section under the Vocational Branch of this Department.

3. Your Committee is not able to recommend that the Government should create another special fund as indicated in the third suggestion above.

4. Owing to the increase in pensions and helpless allowance, both of which will enure to the benefit of the blind, your Committee makes no recommendation on this suggestion.

IX.—PROBLEM CASES.

On the 21st November, 1919, the Department of Soldiers' Civil Re-establishment, under authority of Order in Council, P.C. 2328, commenced a Dominion-wide investigation of all sub-normal C.E.F. men who could not be completely taken care of under existing regulations, with a view to complete or partial re-establishment of all possible cases and permanent care of the residue.

Up to the present

440 cases have been examined.

191 have received benefits—89 of whom have been struck off strength.

Some through treatment have become re-established and are now in permanent employment, while others have been placed in institutions for treatment, such as—(1) Homes for Incurables; (2) Psychopathic Centres. Others do not require treatment but are in need of care. 102 are still on the strength.

The cases coming under this investigation have been grouped under three classes—

(1) Early senility

(premature old age);

(2) Somatic conditions

(injury and disease other than mental);

(3) Nervous and mental conditions.

The senile cases are suffering from symptoms of early breakdown. This condition may or may not have been aggravated by military service.

Somatic cases are the result of wounds and a variety of diseases superimposed by functional neuroses.

The nervous and mental cases constitute—

(a) Mental defectives,

(b) Epileptics, and

(c) Organic diseases of the nervous system,

(d) Mental diseases.

Close observation of the treatment of these cases shows that most sympathetic and scientific care is given to each individual. Every case is studied on its own merits. Occupation is selected suitable to the individual tastes and an atmosphere of content and happiness is sought.

A sub-committee was appointed to investigate the whole question of Problem Cases, and its report will be found in the printed proceedings.

Various witnesses suggested that a Colony Scheme with workshops, etc., attached might provide a means for dealing with Problem Cases and particularly with men suffering from arrested or quiescent Tuberculosis but who are unable to follow any remunerative occupation owing to liability of recurrence of active symptoms.

It is understood that experiments along this line are being conducted in other countries, and your Committee recommends that before embarking upon a similar experimental project in Canada, the results obtained in these other countries be ascertained.

In many of these Problem Cases the amount of pensionable disability is negligible. The question then arises, shall the Federal Government assume the whole responsibility of care and maintenance of these cases and their dependents or only that portion due to service?

With regard to Problem Cases in general, the time during which the experiments referred to in the Report of the Sub-Committee have been in operation is not sufficiently long to warrant any definite recommendation. Your Committee considers that it would be in the interest of the work that the matter be left where it is for another year, when it may be possible to submit a concrete proposal embodying plans of a permanent character.

X. VOCATIONAL TRAINING.

A large amount of evidence was placed before the Committee on the subject of Vocational Training and the allowances received by students, and suggestions were made looking towards an increase in the rates and to changes in the general methods adopted by the Department of 'Soldiers' Civil Re-establishment.

With regard to the rates payable it is recommended that from the 1st of September next an increase to the amounts recommended in the pension bill for privates and their dependents be paid to vocational students and their dependents.

Some of the suggestions dealing with the selection, length, and extension of courses indicated an intimate knowledge of the subject by those who appeared before the Committee. At the same time, after a careful investigation, it would not appear that any changes in the regulations are necessary.

With regard to minors and non-disability cases, certain witnesses suggested that vocational training should be extended so as to include a minor up to the age of 21, and all men who were interrupted by enlistment in learning a trade or profession, also that minors who were trained would be granted a bonus for one month's allowances at the expiration of their course.

In view of the generous allowances made to minors, and the increased amount of pay now proposed, it is not recommended that the bonus should be granted to any other than disabled men, nor is it considered advisable to recommend the extension of the age limit.

A report on vocational loans under the authority recommended by the Re-establishment Committee last year was made and suggestions were received that the loan be more generally applied and that financial assistance be given to all ex-soldier students. As these suggestions involved an extension of the granting of loans, a subject dealt with more fully elsewhere, it was decided to take no action in the matter.

Estimated increased liability per annum, \$1,500,000.

XI. PAY AND ALLOWANCES FOR MEN UNDERGOING MEDICAL TREATMENT.

Various witnesses suggested that there should be an increase in allowances to men undergoing medical treatment and to their dependents, particularly those suffering from tuberculosis.

In view of the increased cost of living since the pay and allowances issued by the Department of Soldiers' Civil Re-establishment were authorized, your Committee would recommend that a new scale be drawn with effect from the 1st of September next, based as nearly as possible on the total disability pension now recommended with suitable deductions when men are undergoing treatment in hospital. In other words, that the allowances for an out-patient who is unable to follow a remunerative occupation should approximate as nearly as possible a total disability pension.

Estimated increased liability per annum, \$900,000.

XII.—CASES FOR OBSERVATION OR EXAMINATION.

Suggestion.—That an increase be made in the allowances for men called in for observation or for repair to orthopaedic appliances, by the Department of Soldiers' Civil Re-establishment or for examination by the Board of Pension Commissioners.

Recommendation.—That the present regulations of the Department of Soldiers' Civil Re-establishment and of the Board of Pension Commissioners be amended so that in lieu of the allowances now paid by the Department of Soldiers' Civil Re-establishment to a man called in for examination, observation or for treatment for a period not exceeding one week, or for repairs to or replacement of an artificial limb or other orthopaedic appliance, and in lieu of the allowances now paid by the Board of Pension Commissioners to a man called in for re-examination, an amount of \$5 per day be paid, plus return transportation, first-class, with sleeping berths, if neces-

sary, if living out of town; or \$3 per day if the place to which he is directed to go is in the same town as or is contiguous to his place of residence, in both cases with proportionate amounts for periods of less than one day.

XIII.—ISSUE OF CLOTHING TO PATIENTS ON STRENGTH OF S.C.R. FOR TREATMENT.

It was claimed by certain witnesses from Tuberculosis Sanatoria that the regulations imposed by the Department of Soldiers' Civil Re-establishment on the free issue of clothing were of so strict a character as largely to discount the value of the provisions recommended by the Re-establishment Committee at the last session. After investigating the matter it would appear that some misapprehension exists regarding this matter, as the regulations of the Department are quite in harmony with the recommendation referred to.

It has been suggested, however, that instead of a free issue of clothing each patient undergoing treatment should be paid in cash an amount equivalent to the cost of clothing to the Government.

Your Committee therefore recommends that the free issue of clothing to patients on the strength of the Department of Soldiers' Civil Re-establishment for medical treatment provided for under Order in Council, P.C. 2325, 1919, be discontinued, and that in lieu thereof each patient be granted as from the first of September next a cash allowance at the rate of \$7 per month.

XIV.—TRANSPORTATION OF EX-MEMBERS OF THE FORCES AND THEIR DEPENDENTS.

Following the recommendation of the Committee of last year, the amounts expended for the transportation of the dependents of the members of the Canadian Expeditionary Force who returned to Canada prior to the Armistice, were refunded. It has been pointed out that this provision should, in fairness, be extended to the dependents of members of the Imperial Forces who were domiciled in Canada prior to the war.

The Committee therefore recommends, under regulations to be instituted:

That the provisions for the Repatriation of dependents of Canadian Soldiers and Sailors at Government Expense enacted by the Order-in-Council of 29th January, 1919 (P.C. 179), and amended by the Order-in-Council of 29th November, 1919 (P.C. 2390), be further amended to include the wives, and children under 18 years of age, and widows of ex-members of His Majesty's Forces where such men were on Active Service during the War 1914-1919, and were bona fide domiciled and resident in Canada on August 4th, 1914.

The following suggestions have also been received:

Suggestions.—1. That in the case of a tuberculous patient transferred from one locality to another for treatment, his wife, family and household effects be also transferred at the public expense.

2. That if in the case of a man who emigrated to Canada it is considered desirable for medical reasons that he be transferred to the custody and care of friends outside of Canada, the necessary transportation be provided at the expense of the public.

3. That where an ex-member of the Forces has died owing to war disability, leaving a wife or children, and it is considered desirable that the family should be assisted to proceed to the original home of the wife, she or they be transferred at the expense of the public.

Recommendation.—Your Committee recommends that any cases coming to the notice of the Department of Soldiers' Civil Re-establishment, covered by the above suggestions should be referred in each instance to the Governor General in Council with a special recommendation.

XV.—DISCOUNT ON STERLING FUNDS.

Suggestion:—That the policy be continued of cashing at par sterling cheques payable to Canadians who served in the Imperial forces.

Recommendation:—While your Committee thinks this obligation might well be assumed by the Imperial Government and that representations to that effect should be made, it recommends in the meantime that the Department of Finance should make arrangements to continue cashing at par cheques payable in sterling issued by the British Government or by the Board of Pension Commissioners on behalf of the British Government in payment of pay and allowances, gratuities or pensions to or in respect of ex-members of the Imperial forces when resident in Canada or to the dependents when resident in Canada of such ex-members of the Imperial forces provided such ex-members of the Imperial forces were bona fide domiciled and resident in Canada on the 4th of August 1914.

XVI.—INSANE EX-MEMBERS OF THE FORCES.

Suggestions:—1. That the present arrangement regarding allowances for men undergoing treatment in hospitals for the insane and for their dependents be continued except that instead of \$100 per year, or a proportion thereof, the man himself should be credited with the difference between the pay and allowances to which he would have been entitled under P.C. 387 and the allowances payable under P.C. 1993.

2. That just and adequate provision be made for the dependents of insane patients graded as Class C under P.C. 1993.

Recommendations.—1. The attention of the Committee was called to the provision made for the issue of pay and allowances to, or in respect of ex-members of the Forces suffering from insanity and their dependents. While the existing provisions appeared to be satisfactory in the majority of cases, it was felt that should a man recover from his insanity he should receive the difference between the allowances he and his dependents may have received and the allowances which would have been paid to them had his disability been other than mental. Your Committee recommends that Clause 4 of Order in Council, P.C. 1993, 1918, be cancelled and the following substituted therefor:—

“Former members of the Forces who are insane may be divided into three classes as follows:—

- A. Retired or discharged owing to insanity entirely caused by service.
- B. Retired or discharged owing to insanity only partially caused by service; and
- C. Retired or discharged owing to insanity not in any way caused by service.

Each of these classes may be subdivided as follows:—

- (1) With dependents.
- (2) Without dependents.

Classes A and B.—Former members of the Forces retired or discharged owing to insanity entirely caused by service, or partially caused by service.

(1) With dependents: (a) The former members of the Forces shall be maintained by the Department of Soldiers' Civil Re-establishment. (b) His dependents shall be paid by the Department of Soldier's Civil Re-establishment a sum equal to the amount of pension which would be payable to them if he had died on active service. (c) Should he be certified to have recovered from his insanity the amounts which would have been paid to him and his depen-

dents had he been receiving treatment for a disability other than mental shall be computed and there shall be deducted therefrom the amounts which have been paid to or in respect of his dependents and the amounts which have been paid for or in respect of clothing and comforts and other expenses for the man himself, other than maintenance, and the balance shall be paid to him in one sum or spread over a period at the discretion of the Department of Soldiers' Civil Re-establishment, provided that no amounts other than those set forth in subsection (b) of this paragraph, shall be payable to his dependents or his estate, should he die while undergoing treatment. (2) Without dependents: (a) The former member of the forces shall be maintained by the Department of Soldiers' Civil Re-establishment. (b) Should he be certified to have recovered from his insanity, the amounts which would have been paid to him had he been receiving treatment for a disability other than mental, shall be computed and there shall be deducted therefrom the amounts which have been paid for or in respect of clothing and comforts and other expenses, other than maintenance, and the balance shall be paid to him in one sum, or spread over a period at the discretion of the Department of Soldiers' Civil Re-establishment provided that no amounts shall be payable to his estate, should he die while undergoing treatment.

Class C.—Former members of the forces retired or discharged owing to insanity not in any way caused by service.

The former member of the forces shall be maintained by the Department of Soldiers' Civil Re-establishment. No allowances shall be paid to his dependents, if any, and no amount shall be paid to him should he recover.

2. With regard to suggestion number two, it was ascertained that every care is taken by the Department of Soldiers' Civil Re-establishment and the Board of Pension Commissioners to determine the cause of disability of an insane man, and if it can be shown that there has been an aggravation due to service the dependents of such man are granted full allowances. The men who have been placed in Class C are those whose insanity is in no way due to or aggravated by service. They would have been in exactly the same condition without military service in which case they and their dependents would have become a charge on the municipality of domicile or the province. Having, however, for a short time been in uniform the Dominion has relieved the provincial authorities of the cost of maintenance. It is not recommended that any further obligations should be assumed by the Dominion.

XVII.—ADMINISTRATION IN THE UNITED STATES OF THE BENEFITS AVAILABLE TO THE MEMBERS OF THE C.E.F.

The following suggestions were made.—1. That the Committee consider, where in great centres like Chicago, New York and Boston there is a great number of Canadians, a representative of the Dominion Government should be appointed to consider such questions as Re-establishment and to give advice on Land Settlement.

2. That the allowances of patients undergoing treatment in the United States be issued with less delay by the Department of Soldiers' Civil Re-establishment.

3. That disabled ex-members of the Canadian Forces, resident in the United States, be provided with vocational training in that country at the expense of the Canadian Government.

Recommendation.—1. That the Department of Soldiers' Civil Re-establishment be asked to investigate the situation in the centres indicated, and at any other points which may appear to be necessary, with a view to ascertaining the extent of the problem and to making such recommendations to the Government as may be deemed advisable.

2. It is understood that a re-arrangement has been made between the Department of Soldiers' Civil Re-establishment and the Bureau of War Risk Insurance at Washington, whereby the delay referred to will be largely eliminated.

3. It is not considered desirable to make any change in the present procedure, whereby an ex-member of the Canadian Forces, resident in the United States, is required to come to Canada for re-training.

XVIII.—SOLDIER SETTLEMENT ACT.

Under the provisions of the Act over 50,000 applications almost wholly from members of the Canadian Expeditionary Force have been received and considered.

Of these applications nearly 37,000 have been accepted, and in addition some 1,500 members are undergoing a course of training. Over 42 per cent of those whose applications have been accepted are actually on the land, while some 6,500 additional have, under the Act, settled upon soldier grants.

These operations entail commitments on the Dominion of well nigh \$60,000,000 of which an approximate total of \$42,000,000 has been disbursed.

A very large number of resolutions dealing with various provisions of the Soldier Settlement Act was submitted to your Committee. Certain of these were discussed by the main Committee with the Chairman of the Soldier Settlement Board; the remainder were remitted for the consideration of a sub-committee, who went over the same with the Chairman of the Board and with the Dominion Secretary of the Great War Veterans Association, and subsequently reported thereon to your Committee.

On the 21st of May the Dominion Secretary-Treasurer of the G.W.V.A., Ottawa, submitted a letter to the Chairman of the Pensions and Re-establishment Committee with which a number of cases of complaints were forwarded being submitted "in support of claims advanced in respect of the administration of the Soldier Settlement Board."

It is not within the jurisdiction of this Committee to conduct an investigation into the administration of the Soldier Settlement Act, but only to consider any questions concerning land settlement as it affects the re-establishment of returned soldiers. A letter was received from the Honourable the Minister in charge of the Soldier Settlement Act administration to the effect that if specific cases of complaints or grievances or charges might be preferred, the Minister and the Board would be pleased if the Committee would hear the evidence brought before it in order that a determination might be reached as to the merit of the complaint as a criticism of the administration of the Act. The Veterans' Associations were also evidently desirous that the Committee should consider the evidence.

The Committee has therefore seen fit to receive the evidence submitted by the Secretary-Treasurer of the G.W.V.A., and has considered the complaints or allegations made.

The cases submitted are for the most part complaints from or on behalf of individuals who did not secure from the Board what they thought they should have secured. The Committee finds that in certain cases applications for benefits were not entertained because they could not be allowed within the scope and spirit of the Act. One complaint had relation to the case of an applicant of mature age and inexperienced in successful farming, who was unable to satisfy the Board as to his qualifications. Another was the case of an applicant to purchase additional land who was already farming his own land, whose case came clearly in conflict with the limitations of the Act and regulations.

Another case claimed compensation for losses incurred for time and money lost in taking possession of certain land before title was complete. In a number of cases where it was alleged settlers had lost stock through neglect or adverse regulation of the Board it was shown by inspection reports that attention which could reasonably

be expected in the way of assistance and supervision was rendered by the officers of the Board and that certain cases cited by name in the complaint as having lost from three to ten head of stock actually had not lost the stock; that certain of the persons named were actually not settlers of the Board at all.

In certain cases relief for personal distress on the part of individuals who suffered hardship were matters for the Federal Emergency Relief and in the specific case cited it was evident from the papers on record that the hardship was not due to neglect on the part of officers of the Board.

In another case the complainant forwarded particulars that certain parties had acted improperly in connection with the sale of certain land to the Board. Allegations in this case had previously reached the Board and the Board had at its own instance set machinery in motion for the ascertaining of the facts with a view to appropriate action. It has legal officers for the purpose of investigation and punishment of illegal acts and fraud. It is unavoidable that some persons, vendors of land or others, may seek to make profits wrongfully at the expense of the Board. The Board must take appropriate action against such persons and in this case the Board is shown to have acted with promptness so far as the case has yet advanced, the enquiry being still in progress.

In the matter of relief to settlers who were short of feed for stock owing to the abnormal feed situation in the Western provinces, last winter, the Board submitted its statement of the amounts advanced to its settlers for feed since the 1st of May last year when the shortage commenced. Approximately half a million dollars was advanced by the Board for the item of feed alone since the 1st of April. The evidence brought before the Committee as to the general feed situation showed clearly that not only new settlers but old and experienced farmers throughout certain districts suffered heavily in this regard. The Committee cannot conclude from the evidence submitted that there was any neglect of settlers but that on the other hand the Board's officers were doing their best by visiting settlers who required it and approving of assistance within the limits of the legislation when the circumstances justified, and that many of the soldier settlers were in a better position because of the Board's supervision and assistance than they could have been had that assistance not been obtainable. There is nothing to show that complaints having merit are not revised by the Board and dealt with on their merits.

At various dates subsequent to the 21st of May, further communications were received from the Dominion Secretary of the G.W.V.A., as well as a lengthy letter from Mr. C. M. Browning, of Edmonton, relative to the general situation in connection with the Soldier Settlement Act. These letters were as well referred to the Sub-Committee before mentioned, whose report thereon will be found in the printed proceedings of your Committee.

The main operations under the Act appear to have been beneficial to the extent of the settlement on land of a very considerable number of men to the full extent of the money appropriations set apart for the purpose by Parliament; these operations are still going on, and no further important changes appear to the Committee advisable at the present time in the general policy or scope of the Act as already amended at the present session of Parliament.

It would appear that the basic safeguards provided to the huge outlays under the Act and the necessity that every dollar of this expenditure must be supervised by the Board, must result in many unqualified men failing to qualify for settlement and many applications for unsuitable land being refused, and that a certain amount of complaint must normally arise.

After reviewing the letters of complaints submitted by the Secretary-Treasurer of the G.W.V.A. and taking into account the magnitude of the Board's operations, the great pressure of work during last year's business, the Committee cannot but feel that the complaints which the Veteran's organizations have been receiving from indi-

viduals and which are illustrated by the typical cases placed before the Committee are cases of individual complaint which must necessarily arise from the settlement of from fifteen to twenty thousand men and a total expenditure of over forty million dollars in loans, where certain individuals cannot necessarily receive all they demand and where delays must unavoidably occur in certain cases because of the character and volume of business transacted. In the actions of the Board as viewed in the light of the individual complaints mentioned, the Committee feel that there is nothing to show executive inefficiency.

XIX.—SPECIAL PLANS FOR LAND SETTLEMENT.

Mr. H. M. Mowat, M.P., and Mr. Noulan Cauchon addressed your Committee upon the respective plans which were placed by them before the Committee of last year.

Your Committee is of the opinion it would be unwise under existing conditions to enter further into these plans until, as stated earlier in this Report, further evidence is obtained with regard to somewhat similar schemes which have been initiated in Great Britain and elsewhere, for the benefit of returned men.

XX.—CIVIL SERVICE COMMISSION.

There was submitted to your Committee by the Great War Veterans' Association a series of resolutions relating to the Civil Service Commission. Certain of these indicated that returned men had some doubt as to whether their claims were receiving proper attention. The Secretary of the Commission appeared before the Committee and his examination made it clear that not only were the provisions of the law in favour of returned men being carried out to the letter but that the Commission worked in close co-operation with the recognized Veterans Associations. In evidence of this he pointed out that the permanent staff of Examiners in the offices of the Commission to whom is allotted the duty of setting and examining the papers in general examinations were almost without exception returned men. In the case of appointments where the services of a special Board of Examiners were required, an accredited representative of the returned men was invited to act on such board.

Other resolutions urged the permanent appointment of returned men after six months satisfactory service in a temporary capacity. The total number of employees in the Civil Service of Canada is approximately 60,000 and of these 25,456 are ex-members of the forces. As however, only 7,609 hold permanent positions, there are over 17,000 employed in a temporary capacity.

Your Committee was advised by the Secretary that the Commission had prepared and were about to submit to the Governor in Council regulations dealing with the permanent appointment of employees now holding temporary positions. In his opinion, these regulations which are of an important and far-reaching character will fully safeguard the interests of the returned soldiers.

In the opinion of your Committee it is reasonable that returned men, who secure temporary positions in the Public Service before the adoption of the Civil Service Amendment Act of 1919, and have given efficient service therein should be confirmed if their record and rating are satisfactory to the Department and the Commission, and the needs of the Service justify such continuance of permanent employment.

It would, however, be unreasonable to demand the permanent appointment of any temporary employee, returned man or otherwise, if the requirements of the Service did not call for his retention and consequently the question of making returned men permanent must depend first and foremost on the requirements of the Service.

With regard to the following suggestions on sick-leave and pay for disabled returned men in the Civil Service your Committee make the recommendations set out below:

Suggestions:—1. That ex-members of the Canadian Expeditionary Force, etc., whilst holding appointments in the Civil Service who have recurrence of disability incurred on active service be given sixty days' leave, if necessary, pending their recovery and that their salary be continued for sixty days, should it amount to more than they would receive from the Department of Soldiers' Civil Re-establishment, but that only one salary be drawn. Otherwise that ex-members of the Canadian Expeditionary Force, etc., have their positions retained for them and that they draw pay and allowances at the rate provided by the S.C.R. so long as they may be on leave of absence.

2. That ex-members of the Forces who are employed by the Civil Service and who are undergoing treatment for war disability should be continued on pay by the Department in which they are employed, during the continuance of such treatment.

Recommendation:—That whereas the regulations of the Civil Service provide for certain leave of absence for sickness with full pay and whereas the Department of Soldiers' Civil Re-establishment is authorized to issue pay and allowances to men undergoing treatment for a war disability, any ex-members of the Forces employed in the Civil Service who require further treatment by the Department of Soldiers' Civil Re-establishment be given pay and allowances by that Department, in lieu of salary of the Department in which they are employed, after the expiration of the period of leave with full pay to which they are entitled under the Civil Service regulations.

As to the following suggestions, viz.:—

1. That an ex-member of the Canadian Expeditionary Force, etc., if competent, and who left his position to go on active service, shall be allowed to occupy his former position and shall be entitled to receive all increases and privileges which would have accrued to him had he not gone on active service.

2. That the Civil Service Commission be instructed to release from the Service all married women employed by the Government, whose husbands are in receipt of adequate remuneration, and whose positions could be filled satisfactorily by ex-members of the Canadian Expeditionary Force.

Your Committee recommends that the Government should take into consideration the advisability of amending the Civil Service Act and the regulations thereunder so as to give practical effect to these suggestions.

XXI.—LAST POST FUND.

The plan of the Last Post Fund, which desires the burial, at the public expense, of all indigent ex-soldiers, and which aims eventually at the establishment of national soldier cemeteries throughout Canada, was brought forcibly before the Committee in a series of communications from the President and Vice-President of the Fund.

As stated earlier in this report, your Committee has recommended payment of the medical and funeral expenses of a disabled man who dies without means. Beyond this point your Committee does not feel able to go.

Your Committee begs to submit herewith, for the information of the House, a copy of its proceedings and the evidence taken by it and also certain papers and records submitted to the Committee, but not contained in its proceedings.

All of which is respectfully submitted.

(*In the Committee.*)

The following Resolution was adopted:—

2. That subsection four of section 160 be amended to provide that in every case where grain has been delivered at any country elevator, or where grain which has been so delivered and for which a warehouse storage receipt for special binned grain was issued, is subsequently purchased by the operator of any such elevator and a cash purchase ticket issued therefor to the person by whom such grain was delivered as aforesaid or to the person lawfully entitled to hold and surrender such warehouse storage receipt or storage receipt for special binned grain, if the paying agent of such warehouseman within twenty-four hours after demand by the holder (provided such demand be made during twenty-four hours after the issue of the purchase ticket) neglects or refuses to redeem such cash purchase ticket, the said holder may at once, upon surrender of such cash ticket, demand in exchange therefor a warehouse storage receipt bearing the same date and place of issue, and for a similar grade and net weight of grain as was shown on the cash purchase ticket aforesaid. (c) to sell wheat so delivered to millers in Canada for milling purposes at such prices and subject to such conditions as the Board sees fit, the price of sale to millers being governed as nearly as may be by the price obtainable at the same time in the world's markets for wheat of equal value, regard being had to the cost of transport, handling and storage;

(d) to store and transport such wheat with a view to the marketing of the same;

(e) to sell wheat so delivered in excess of domestic requirements to purchasers overseas or in other countries for such prices as may be obtainable;

(h) to purchase flour from millers at prices to be fixed by the Board, and to sell the same in Canada or in other countries;

(i) to take possession of and to sell and deliver to millers, or to purchasers in other countries, wheat stored in any elevator, warehouse or on railway cars or Canadian boats, and to deal with the same as to payment of advance and otherwise in the same way as if it had been otherwise delivered to the Board, and to move grain into and out of or through any elevator and to or from any car or boat;

(j) to control, by licenses or otherwise, the export and sale of flour out of Canada;

(k) for the purpose of performing its duties under these resolutions, to allocate Canadian lake tonnage and to distribute cars for rail shipments;

(l) to pay necessary expenses incident to the operations of the Board.

9. That notwithstanding anything in *The Canada Grain Act*, or in *The Railway Act, 1919*, the Board of Railway Commissioners for Canada shall have power to order any railway company to provide cars and other transportation facilities for handling grain, and to transport as directed wheat delivered to or by the Board, or in which the Board is interested, and at the request of the Board to withhold transport of other wheat or grains for a fixed time.

10. That every person shall truthfully and promptly answer any inquiry made by the Board or by any person duly authorized on its behalf about any matter within its powers or duties, whether such inquiry is made verbally, in writing, by telegraph or any other way.

(d) Fixing dates up to which, and not beyond, the Board is prepared to take deliveries at different places in Canada;

(e) Determining what constitutes delivery to the Board.

12. That the Board may from time to time appoint an executive committee of not less than three of its members of whom the Chairman shall be one, and may assign to such executive committee any duties or powers within the competence of the Board.

13. That there shall not be provided on any grain exchange or elsewhere facilities for trading in wheat futures during the time the Act based upon these resolutions is in force, except by permission in writing of the Board.

The Governor in Council shall prescribe the place where such notes shall be paid, the method of discounting them, and the time when such notes are to be paid.

Provided that the first of such notes shall be made payable at a date not less than twenty-one months after the time the contract was entered into, and the last of such notes shall be made payable at a date not later than fifty-seven months after such time.

Sir Henry Drayton moved, That the House do go into Committee of the Whole, to-morrow, to consider the following proposed Resolutions:—

1. That it is expedient to bring in a measure to provide that the Minister of Finance or such other Minister as the Governor in Council may determine may enter into an insurance contract with any returned soldier domiciled or resident in Canada or any widow of a soldier so domiciled or resident for the payment of five hundred dollars or any multiple thereof not exceeding five thousand dollars, one-fifth thereof payable on death of insured and the remainder at option of insured, and after his death at the option of the beneficiary as a life annuity or as an annuity certain for five, ten, fifteen or twenty years, or as an annuity guaranteed for five, ten, fifteen or twenty years and payable thereafter as long as the beneficiary may live.

2. That the contract may provide that the payment of premiums may be waived if the insured becomes totally disabled, if such disability does not entitle him to a pension under the Pension Act, that he may receive an amount not exceeding one-twentieth of the sum insured but not to exceed twenty payments in all, and that if he dies before such payments are completed the balance assured may be paid as a death benefit.

3. That the payment be made to the wife, husband, child, grandchild, parent, brother or sister of insured or person entitled under any regulation to be a beneficiary.

4. That if insured is a married man or a widow with child or children the insurance shall be for their benefit, or some one or more of them at insured's option; if a widow the insurance shall be for the benefit of such person or persons within the classes mentioned in resolution three as may be shown to the satisfaction of the Minister to be to a substantial extent dependent on the widow; if an unmarried man or a widower without children the insurance shall be for his future wife or future wife and children.

5. That where a beneficiary dies in the life time of the insured he may declare that the share of such person shall be for the benefit of his wife or child or one or more of them, and, in default of such declaration, the share shall be apportioned in equal shares if there is more than one beneficiary. If all beneficiaries so die the insured may declare that the money shall be for the benefit of his wife or his surviving children, if any, and if he makes no declaration the money shall be divided equally among his wife and surviving children, and, if there is no wife or children, the money, subject to the provisions mentioned in resolution three, shall become part of his estate.

6. That if on the death of the insured a pension becomes payable under The Pension Act to any person or persons within the classes mentioned in resolution three there shall be deducted from the benefit payable the aggregate present value of the pension or pensions so payable computed on such basis as may be prescribed by regulation, and in such case there shall be returned to the beneficiary or beneficiaries in proportion to their respective interests under the contract the proportion of the premiums paid (with interest at four per cent per annum, compounded annually), which the amount of the said deduction is of the total amount assured under the contract.

7. That if the insured survives all the persons to whom the death benefit may be paid under the provisions of resolution three, or if all the said persons die before the payment of the instalments of the death benefit have been completed, the estate of the insured shall be entitled to receive only the amount by which the reserve under the contract at the time of the death of the insured exceeds the sum of the payments so made. In this resolution the word "reserve" means the net premium value of the contract on the basis of the British Offices Life Tables, 1893, Om (5), with interest at the rate of four per cent per annum.

8. That when no apportionment is made of the insurance money all persons interested as beneficiaries shall share equally therein.

9. That the contract may provide for payment of a single premium or premiums uniform throughout the lifetime of insured or during lifetime of insured for ten, fifteen, or twenty years, or until the age of sixty-five.

10. That no medical examination shall be necessary unless the Minister deems it necessary to enable him to decide whether or not he will refuse in any particular case to insure.

11. That the insurance shall not be assignable or liable to claims of creditors.

12. That the Governor in Council may make regulations respecting forms of contract, proof of age, etc., and for carrying out the purposes of the Act.

13. That moneys received shall be paid into the Consolidated Revenue Fund, and moneys payable shall be paid out of such fund.

14. That an annual statement shall be laid before Parliament.

15. That no contract of insurance shall be entered into after 1st July, 1922, and that the measure shall come into force on 1st August, 1920.

Whereupon, Sir Henry Drayton, a Member of the King's Privy Council, informed the House, That His Excellency the Governor General, having been informed of the subject matter of the said proposed Resolutions, recommends them to the House.

The House went into Committee of the Whole to consider certain proposed Resolutions respecting Insurance for Returned Soldiers by the Dominion of Canada.

(In the Committee.)

The following Resolutions were adopted:—

Resolved,—1. That it is expedient to bring in a measure to provide that the Minister of Finance or such other Minister as the Governor in Council may determine may enter into an insurance contract with any returned soldier domiciled or resident in Canada or any widow of a soldier so domiciled or resident for the payment of five hundred dollars or any multiple thereof not exceeding five thousand dollars, one-fifth thereof payable on death of insured and the remainder at option of insured, and after his death at the option of the beneficiary as a life annuity or as an annuity certain for five, ten, fifteen or twenty years, or as an annuity guaranteed for five, ten, fifteen or twenty years and payable thereafter as long as the beneficiary may live.

2. That the contract may provide that the payment of premiums may be waived if the insured becomes totally disabled, if such disability does not entitle him to a pension under the Pension Act, that he may receive an amount not exceeding one-twentieth of the sum insured but not to exceed twenty payments in all, and that if he dies before such payments are completed the balance assured may be paid as a death benefit.

3. That the payment be made to the wife, husband, child, grandchild, parent, brother or sister of insured or person entitled under any regulation to be a beneficiary.

4. That if insured is a married man or a widow with child or children the insurance shall be for their benefit, or some one or more of them at insured's option; if a widow the insurance shall be for the benefit of such person or persons within the classes mentioned in resolution three as may be shown to the satisfaction of the Minister to be to a substantial extent dependent on the widow; if an unmarried man or a widower without children the insurance shall be for his future wife or future wife and children.

5. That where a beneficiary dies in the life time of the insured he may declare that the share of such person shall be for the benefit of his wife or child or one or more of them, and, in default of such declaration, the share shall be apportioned in equal shares if there is more than one beneficiary. If all beneficiaries so die the insured may declare that the money shall be for the benefit of his wife or his surviving children, if any, and if he makes no declaration the money shall be divided equally among his wife and surviving children, and, if there is no wife or children, the money, subject to the provisions mentioned in resolution three, shall become part of his estate.

6. That if on the death of the insured a pension becomes payable under The Pension Act to any person or persons within the classes mentioned in resolution three there shall be deducted from the benefit payable the aggregate present value of the pension or pensions so payable computed on such basis as may be prescribed by regulation, and in such case there shall be returned to the beneficiary or beneficiaries in proportion to their respective interests under the contract the proportion of the premiums paid (with interest at four per cent per annum, compounded annually), which the amount of the said deduction is of the total amount assured under the contract.

7. That if the insured survives all the persons to whom the death benefit may be paid under the provisions of resolution three, or if all the said persons die before the payment of the instalments of the death benefit have been completed, the estate of the insured shall be entitled to receive only the amount by which the reserve under the contract at the time of the death of the insured exceeds the sum of the payments so made. In this resolution the word "reserve" means the net premium value of the contract on the basis of the British Offices Life Tables, 1893, Om (5), with interest at the rate of four per cent per annum.

8. That when no apportionment is made of the insurance money all persons interested as beneficiaries shall share equally therein.

9. That the contract may provide for payment of a single premium or premiums uniform throughout the lifetime of insured or during lifetime of insured for ten, fifteen, or twenty years, or until the age of sixty-five.

10. That no medical examination shall be necessary unless the Minister deems it necessary to enable him to decide whether or not he will refuse in any particular case to insure.

11. That the insurance shall not be assignable or liable to claims of creditors.

12. That the Governor in Council may make regulations respecting forms of contract, proof of age, etc., and for carrying out the purposes of the Act.

13. That moneys received shall be paid into the Consolidated Revenue Fund, and moneys payable shall be paid out of such fund.

14. That an annual statement shall be laid before Parliament.

15. That no contract of insurance shall be entered into after 1st July, 1922, and that the measure shall come into force on 1st August, 1920.

"2A. (1) Those provisions of *The Civil Service Act, 1918*, as amended by *The Civil Service Amendment Act, 1919*, and by the foregoing sections of this Act, which apply to The Senate, to the Speaker of the Senate, or to the officers, clerks and employees of The Senate, shall cease so to apply on and after the passing of this Act.

"(2) All such privileges, immunities and powers of The Senate, with regard to its officers, clerks and employees, as existed before the passing of *The Civil Service*

"Provided, however, that any benefit enjoyed by the officers, clerks or employees of The Senate under the provisions of the said Acts and the amendments of those Acts, with respect to status, salaries or increase of salary, bonus, superannuation or retirement, Civil Service Insurance, gratuity to an employee's widow and like benefits, shall continue to apply with respect to the staff of The Senate."

2. Page 3, line 7.—Add the following as clauses 6 and 7 respectively:—

"6. *The Civil Service Act, 1918*, is hereby amended by inserting therein, immediately after section thirty-three, the following section:—

"33A. The following days and none other shall be the holidays to be observed in and by the Civil Service:—

- (1) Sundays;
- (2) New Year's Day;
- (3) Good Friday;
- (4) Easter Monday;
- (5) Victoria Day;
- (6) The birthday of the reigning Sovereign, or the day fixed by proclamation by the Governor in Council for the celebration thereof;
- (7) Dominion Day;

"(2) In this section the expression "ship of His Majesty" includes every description of vessel, however propelled, which is used in navigation or in the improvement of navigation, and which is the property of or chartered or employed by His Majesty, or the cost of which, or any portion of the cost of which, has been defrayed out of the Consolidated Revenue Fund of Canada."

The first amendment being read the second time;

Mr. Rowell moved, That the said amendment be not concurred in for the following reasons, namely:—

"That such amendment is inconsistent with the principles of the Civil Service legislation embodied in the Civil Service Acts of 1908, 1918 and 1919, and is subversive of the policy of Civil Service reform which has been repeatedly approved by the Parliament of Canada and by the electorate."

And the question being put on the said motion; it was resolved in the affirmative.

The second amendment being read the second time;

Mr. Rowell moved, That the said amendment be concurred in.

And the question being proposed;

Mr. Trahan moved in amendment thereto: That all the words after the word "That" be struck out and the following inserted instead therefor: "this House do not concur in the amendment embodying new clause 6 in this Bill relating to holidays because this amendment has the effect of encroaching upon the religious rights and privileges of many civil servants."

Mr. Speaker: In my judgment this amendment is not in order because, in effect, it is negative of the motion now before the House, and the same result would be obtained if that motion is voted against. For that reason I am of opinion the amendment is not in order. I therefore so rule.

And the question being again proposed for concurrence in the said amendment;

And a Debate arising thereon, the said Debate was, on motion of Sir Robert Borden, adjourned.

The Bill No. 120, An Act to provide for the retirement of certain Members of the Public Service, was again considered in Committee of the Whole, and further progress having been made and reported, the Committee obtained leave to consider it again at the next sitting of the House.

And a Debate arising thereon, and continuing;

THURSDAY, 24th June, 1920.

And the question being put on the said motion; it was agreed to.

The House accordingly resolved itself into Committee of Supply.

And further progress having been made and reported, the Committee obtained leave to sit again at the next sitting of the House.

The House then adjourned at 1.10 o'clock, a.m.

(d) Fixing dates up to which, and not beyond, the Board is prepared to take deliveries at different places in Canada;

(e) Determining what constitutes delivery to the Board.

Adopted May 7, 1920.

Mr. Currie, from the Joint Committee of both Houses on the Printing of Parliament, presented the Second Report of the said Committee, which is as follows:

The Joint Committee on the Printing of both Houses of Parliament in this, its Second Report, begs to state that it has had under consideration certain recommendations of the Editorial Committee which were submitted to Parliament in the early days of the session. The Editorial Committee, which consists of: Fred Cook, Assistant King's Printer, Chairman; F. C. T. O'Hara, Deputy Minister of Trade and Commerce; F. C. G. Lynch, Superintendent, Natural Resources Intelligence Branch, Department of the Interior, was appointed at the instance of the Joint Committee on Printing, by Order in Council on October 4, 1917. Associated in an advisory capacity are the Right Hon. Sir George Foster, Hon. A. Meighen, and the Hon. M. Burrell.

The Joint Committee takes pleasure in calling attention to the remarkable results which have been achieved in two and a half years by intelligent editorial supervision. For instance, comparing 1915-16, the last year of the old system, with 1918-19, the first complete year in which the Editorial Committee had jurisdiction over the printing of departmental reports, it appears that the number of copies of such reports has been reduced from 325,265 to 151,425; the number of printed pages from 210,007,404 to 55,742,120; and the cost from \$255,813 to \$150,509.

Similarly, with regard to supplementary reports, the number of copies printed in 1915-16 was 222,085, and in 1918-19, 56,080; the total number of printed pages in 1915-16 was 60,799,190; in 1918-19, 11,067,120; the cost in 1915-16 was \$87,488; in 1918-19, \$38,457. These comparative figures added together are:—

1915-16.	1918-19.
\$255,813	\$150,509
87,488	38,457
<hr/>	<hr/>
\$343,201	\$188,966

This represents an annual saving, if the present policy be continued, of \$154,335. Through the activities of the Editorial Committee several publications have been dropped, while many others, not coming within the category of departmental reports, have been greatly reduced in bulk. The economies already accomplished will, therefore, easily aggregate \$250,000 per annum.

Realizing that further reforms and economies are possible, the Joint Committee herewith submits certain recommendations with a view to strengthening the hands of the Editorial Committee and facilitating its labours.

1. The Joint Committee, concurring in the views so forcibly expressed by leaders on both sides in Parliament on the importance of national economy, urges that it be made applicable to National Printing and Publishing as to all other national utilities. From all over the continent there is a call for economy in the use of paper, and so far as Canada is concerned, Parliament and the public departments should set an example. The tendency to verbosity which was a characteristic of departmental reports in the past has disappeared in large measure, but there is still room for improvement.

Especially is this apparent in the periodical publications issued by the Ottawa departments. It is a sheer waste of money to print paragraphs telling of "Housing Conditions in Constantinople"; "The Domestication of the African Elephant in the Belgian Congo"; "Agricultural Conditions in Mesopotamia," etc., all of which have appeared in departmental publications recently. The Editorial Committee should have authority to blue pencil such articles without having to ask the Advisory Committee for its concurrence, and the Joint Committee so recommends.

2. Evidence has been submitted to the Joint Committee that there has been considerable duplication and overlapping in Government publications. The Editorial Committee has attempted to prevent this, but, in some instances, its efforts have been frustrated. The Joint Committee strongly discountenances waste of public money in this manner.

3. In the same connection the attention of Parliament is called to the growing tendency of some departments to establish periodical publications. In a recent instance it transpired that the deputy minister of the department affected knew nothing of a projected publication until asked by the Editorial Committee what purpose it was intended to serve. In another case the first issue of a monthly appeared, and then without any reason assigned it was decided to discontinue it. As a result there is on hand at the Printing Bureau 90,000 beautifully lithographed covers intended for subsequent issues of the defunct monthly, and which are now so much waste. \$1,270 was the amount charged to the country for these covers alone.

Incidents such as these led the Editorial Committee to report to the Advisory Committee of Council, and the ruling was thereupon made by the Right Hon. Sir George Foster that hereafter the authority of the Cabinet must be obtained before any new periodical publication can be issued. The Joint Committee heartily endorses this action.

4. Since Confederation it has been the practice of Parliament to pay for the printing of all departmental reports. The Joint Committee believes the time has arrived when this policy should be abandoned, and that instead each public department be required to annually prepare its printing estimates, to cover all services including the annual report; that Parliament pay only for copies of reports necessary to meet the requirements of its mailing list, and for the Sessional Papers.

This change in practice, it is believed, will conduce to greater economy and be an incentive to the departments to watch their printing appropriations more closely. If this change be accepted by Parliament, it is recommended that it be made operative for the fiscal year commencing April 1, 1921.

5. The rule in the past has been to print as Sessional Papers all reports laid on the table of either House. In many cases the Joint Committee regards this practice as unnecessary, and is of the opinion that publications now issued by the Bureau of Statistics such as "Railway" and "Canal" statistics, "Telephone"; "Telegraph" and "Express" statistics; "Lumber, Lath and Shingles"; "Dairy Factories"; "Planing Mills, Sash and Door Factories"; "Paper and Pulp"; "Wood Distillation", etc., should not be printed as sessionals. These become a permanent record in summarized form in the Year Book. The Census of Industry reports, however, pertaining to Agriculture, Dairying, and Fisheries, should, in the Committee's judgment, be made part of the Sessional Papers.

6. The attention of the Joint Committee has been called to the fact that, in some instances, manuscripts of reports, bulletins, etc., have not been submitted to the Editorial Committee for its consideration, and report to Council, if necessary. It is, therefore, recommended that it be made an imperative order that all manuscripts of publications to be printed for the public departments, or commission whose appropriation is voted by Parliament, must be referred to the Editorial Committee before action is taken upon them.

7. The Joint Committee has noted with interest the change in the paper stock upon which the daily routine publications of Parliament, and many departmental bulletins, are printed by the substitution of No. 1 Newsprint for ordinary "report" paper. This change was made upon the recommendation of the Editorial Committee and has saved the country thousands of dollars.

8. The Joint Committee observes that there is still a tendency on the part of some departments to use illustrations which are not germane to the text of the reports, or have little or no interest to the Canadian people. The order in council governing illustrations says none shall be used unless they are 'required for the better understanding of the text.'

It is recommended that the Editorial Committee be instructed to strictly apply the provisions of the Order in Council.

9. Your Committee is of the opinion that in the interests of economy the use of covers on certain publications such as the "Monthly Bulletin of Agricultural

Statistics", "Conservation of Life", etc., should be dispensed with after the completion of the present volumes, and that, if possible, in the case of the "Agricultural Gazette", the "Labour Gazette", the reports of the Commission of Conservation, the reports of the Department of Mines, and similar reports, a cheaper class of cover stock be used.

10. It is also recommended that every Senator, Member of the Commons, officer or functionary entitled to receive reports or other public documents gratuitously shall be furnished during the month of June in each year with a list of such reports and documents for the current year, with a request that he shall, on or before July 31st, return such list so marked as to indicate the reports and documents which he wishes sent to his address. Those not so marked shall not be forwarded. In the case of reports and other documents which it is impracticable to include in such list, separate notices shall be issued and the reports or other documents shall be forwarded only to those who indicate a wish to be supplied with them.

11. The Joint Committee is advised that over 50 per cent of the requisitions received at the Printing Bureau are marked "Rush", thereby rendering it difficult to secure an even run of work. The Public Printer at Washington is authorized to impose a penalty of 15 per cent on "Rush" orders. While not recommending the adoption of such a drastic rule at present, the Committee would enjoin upon all departments to anticipate their printing orders so that business at the Printing Bureau may be facilitated.

12. The attention of the Joint Committee having been called to the fact that the statutes referring to the publication of official notices in the *Canada Gazette* vary, it is recommended that the Department of Justice look into the matter and prepare legislation to be introduced next session to secure a minimum of printing of such notices with due regard to the public interest, thereby economizing space in the *Gazette*.

The Joint Committee is asked by the Editorial Committee that the provision in the Bankruptcy Act of last session (Chap. 36, section 11, subsection 7) be reconsidered. The subsection reads:

"The King's Printer, upon request of any person who is by the Act required to keep on file for public reference a copy of the *Canada Gazette*, shall regularly supply to each person, gratis, two copies of every issue of such *Gazette*."

It is not known how many names the subsection will add to the 'free' list of the *Gazette*. Every thousand, however, means an additional annual consumption of over 10 tons of 'Parliamentary Report' paper, costing 13½ cents per lb under the latest contract, as compared with 3.67 cents per lb. in 1915. Besides increasing the work in the press and bindery rooms at the Bureau, the 'free' list will augment the operations of the Distribution Branch of the Department of Public Printing, and of the Post Office Department. It is suggested that a single sheet containing Bankruptcy notices as "from the *Canada Gazette*" should serve all purposes.

13. The Joint Committee approves of the recommendations of the Editorial Committee that the stationery used in the different departments be standardized as far as practicable. It regards as absurd the practice of some departments in insisting upon a variation in letter paper from the standard size of 8½ inches x 11 inches, and calling for 8 inches x 10½ inches, 8½ inches x 10½ inches or other sizes. Not only is there a loss in stock in cutting the smaller sheets, but also in time in the trimming operations.

14. Your Committee has also approved a standard form of printing requisition prepared by the Editorial Committee for the use of all departments. The old form lacked detail, necessitating repeated communications with the different departments to ascertain exactly what was required. By strict adherence to the standard requisition, time and money will be saved.

15. In closing this report the Joint Committee desires to express its appreciation of the able manner in which the Editorial Committee has discharged its duties. Believing that, in the face of some opposition, it has accomplished all that was expected of it, but realizing that still more effective service is possible if the Committee be given wider powers the Joint Committee earnestly recommends to the Government an extension of the authority and jurisdiction of the Editorial Committee, so that the printing business of the country may be facilitated.

Mr. Ballantyne, a Member of the King's Privy Council, presented,—Return to an Order of the House of the 26th May, 1920, for a copy of all telegrams, letters and other documents relating to the closing of the Life Saving Station at Cheticamp, Inverness County, N.S.

The House resumed the adjourned Debate on the proposed motion of Mr. Rowell for the concurrence in the second amendment made by the Senate to the Bill No. 53, An Act to amend the Civil Service Act, 1918, and the Civil Service Amendment Act, 1919.

And the question being put on the said motion; it was agreed to, on a division.

On motion of Mr. Rowell, it was resolved, That a Message be sent to the Senate to acquaint their Honours that this House hath disagreed to the first amendment made by the Senate to the said Bill, for the following reasons:—

"That such amendment is inconsistent with the principles of the Civil Service legislation embodied in the Civil Service Acts of 1908, 1918 and 1919, and is subversive of the policy of Civil Service reform which has been repeatedly approved by the Parliament of Canada and by the electorate."

And that they have agreed to the second amendment made by the Senate, without any amendment.

The amendments made by the Senate to the following Bills were respectively taken into consideration and agreed to, viz.:—

Bill No. 178, An Act to amend the Inland Revenue Act.

Bill No. 126, An Act to amend The Bankruptcy Act.

Bill No. 152, An Act to amend the Yukon Placer Mining Act.

The Order being read for House again in Committee of the Whole on Bill No. 12, An Act respecting the Election of Members of the House of Commons and the Electoral Franchise;

By leave of the House, Mr. Guthrie moved, That the concurrence agreed to on June 24th instant, in the Resolution respecting the Election of Members of the House of Commons and the Electoral Franchise be rescinded, and that the said Resolution be now referred back to the Committee of the Whole with instructions that they have power to amend the same,

And the question being put on the said motion; it was agreed to.

The House accordingly went again into Committee of the Whole on the said Resolution.

(In the Committee.)

The said Resolution was amended and adopted, as follows:—

Resolved, That it is expedient to provide in the proposed Act respecting the election of Members of the House of Commons and the Electoral Franchise (Bill 12) now before the House that the Chief Electoral Officer shall be from time to time paid the same salary and superannuation allowance as a puisne judge of the Supreme Court of Canada; that he shall also be paid his reasonable travelling and living expenses while absent from Ottawa on the business of his office; that any sums payable to him hereunder shall be paid out of any unappropriated moneys forming part of the Consolidated Revenue Fund of Canada; that the fees, allowances and disbursements of election officers according as the same shall be fixed by a tariff to be made by the Governor General in Council upon the recommendation of the Chief Electoral Officer shall be paid by Warrant of the Governor General and shall be distributed by such person or persons as the Governor General in Council may direct to the several officers and persons entitled thereto under the provisions of the said proposed Act, which distribution the person or persons so distributing shall report to the Governor General through the Secretary of State.

Resolution to be reported.

The said Resolution was reported, with an amendment, considered as amended, and referred to the Committee of the Whole on Bill No. 12, An Act respecting the Election of Members of the House of Commons and the Electoral Franchise.

The Bill No. 12, An Act respecting the Election of Members of the House of Commons and the Electoral Franchise, was again considered in Committee of the Whole (together with the Resolution in relation thereto, referred to the said Committee this day), reported with amendments, considered as amended, and ordered for a third reading at the next sitting of the House.

The House resolved itself again into Committee of Supply.

(In the Committee.)

“MAY IT PLEASE YOUR EXCELLENCY:

“The Commons of Canada have voted Supplies required to enable the Government to defray certain expenses of the Public Service.

"In the name of the Commons, I present to Your Excellency the following Bill:—

"An Act for granting to His Majesty certain sums of money for the public service of the financial years ending respectively, the 31st March, 1920, and the 31st March, 1921.

"To which Bill I humbly request Your Excellency's assent."

To this Bill the Clerk of the Senate, by command of His Excellency the Governor General, did thereupon say:—

"In His Majesty's name, His Excellency the Governor General thanks His Loyal Subjects, accepts their benevolence, and assents to this Bill."

After Which His Excellency the Governor General was pleased to close the Fourth Session of the Thirteenth Parliament of the Dominion of Canada, with the following Speech:—

Honourable Gentlemen of the Senate:

Gentlemen of the House of Commons:

In relieving you from further attendance in Parliament, I am happy to recall that your labours during the Session have resulted in many beneficial enactments.

You have given to the Franchise Act the long and careful deliberation which the importance of this measure amply justified. It embodies provisions which should insure the preparation of fair and impartial lists at all future elections.

The liberal increases in pensions which have been granted, the establishment of a scheme of state insurance for returned soldiers, and the further provisions concerning the settlement of soldiers upon the land, have shown your determination to take every practical means of fulfilling just obligations towards those who have rendered to our country such conspicuous service.

In the taxation measures which have been adopted, you have courageously taken account of a difficult financial situation and it may be confidently expected that they will materially increase the revenues.

You have wisely made provision to continue authority for the supervision of the marketing of the Canadian wheat crops, if events in the world's markets should render this the most advantageous method of protecting the interests of the Canadian people. The exercise of this authority will necessarily receive the most attentive and careful consideration from my advisers.

The measure providing for the control of fuel recognises the peculiar importance of this matter in the national economy and the need for insuring supplies to the greatest possible extent.

You have adopted legislation with respect to shipbuilding which should result in the continued employment of many thousands of men hitherto engaged in that and associated industries.

The provision made for the naval service wisely recognizes the importance of preserving a nucleus which can be developed if need should arise.

Provision for the air service has also been made in such a manner as will produce the largest trained personnel consistent with the financial capacity of the country. Because of Canada's peculiar geographical position and features, it is highly important that the possibilities of this new method of communication and transportation should be fully explored. The Air Board will be enabled to watch every new development and to take practical steps in the interests of aerial navigation in the Dominion.

The measure for the education and enfranchisement of Indians constitutes an effective means of enabling these wards of the nation to make further advance to the responsibilities of citizenship.

The settlement of the issues of the war still proceeds, but it is hoped that before another Session the final treaties will have been concluded. After obtaining your approval, the Government have sanctioned on behalf of Canada, the ratification of

the Treaty with Bulgaria; the Treaty with Hungary has been signed, but the Treaty with Turkey is still under negotiation.

During the Session, as the result of a Conference between the Government and the Governments of the British West Indian Colonies, an important agreement was concluded with the object of rendering still closer the trade relationships between Canada and these Colonies and of improving the means of intercourse and communication. This agreement will be submitted to you in due course.

Gentlemen of the House of Commons:

In His Majesty's name I thank you for the provision you have made for the needs of the public service.

Honourable Gentlemen of the Senate:

Gentlemen of the House of Commons:

On your return to your homes, I trust you will find such reassuring evidences of a bountiful harvest and of continued productiveness in every sphere of national activity as will enhance your confidence in the prosperity and stability of the Dominion in these critical times.

The SPEAKER of the Senate then said:

Honourable Gentlemen of the Senate:

Gentlemen of the House of Commons:

It is HIS EXCELLENCY THE GOVERNOR GENERAL'S will and pleasure, that this Parliament be prorogued until Tuesday, the 10th day of August next, to be here holden, and this Parliament is accordingly prorogued until Tuesday, the 10th day of August next.

EDGAR N. RHODES,

Speaker.
